听写正文 / QUESTIONS 01–30

P01 What's up, sunshine? I'm Coy Wire. This is CNN 10. Today we have a Louisiana launch pad reaching for the stars, AI trying to top the charts, and a baby shark who's all grown up.

P02 Ten minutes, big world. Let's dive in. We start with two quotes, full of wisdom.

P03 Find out who you are and do it [01] _____. And if you see someone without a smile, give them yours. Words to live by from iconic singer, songwriter, and philanthropist Dolly Parton, who died this week at the age of 80.

P04 Known around the world as the queen of country music, or simply Dolly, the one-of-a-kind star rose from [02] _____ in rural Tennessee to become one of the biggest names in music history.

P05 But for all the records she sold and awards she won, Dolly's greatest hit may have been the lives she touched. She leaves a remarkable legacy of philanthropy, proof that sometimes the biggest stars shine brightest on other people. Our Mina Doerson has more, and a look back at Dolly's incredible career and [03] _____.

P06 Well, I wanted to be a star, but I always thought of a star more of as a singing star.

P07 Legendary country music star, businesswoman, actor, and philanthropist Dolly Parton has died. Parton was born one of 12 kids in a one-bedroom [04] _____ in East Tennessee.

P08 I was never ashamed of my [05] _____, even though we grew up very poor.

P09 Those humble beginnings would shape her life in music.

P10 I think we've become who we are when we're young.

P11 By 21, Parton broke into the country billboard charts for the first time with her [06] _____, Dumb Blonde.

P12 It was one of the first [07] _____ in a career that spanned seven decades. She released over 50 albums, winning 10 Grammys, and garnering 55 Grammy nominations, the most ever for a female country artist.

P13 She received an honorary Oscar in 2025 for her [08] _____.

P14 It makes me want to dream up new ways to help [09] _____, and isn't that what we're supposed to be here for?

P15 Opening Dollywood, a [10] _____ near her hometown in East Tennessee that employs thousands and has invigorated the surrounding area.

P16 Hundreds and hundreds of businesses have [11] _____ and thousands and thousands of jobs. I just really think business. I get that from my dad.

P17 Parton supported many charitable causes, including [12] _____ through her imagination library.

P18 We've officially gifted over 200 million books to children.

P19 Dolly Parton leaves behind more than iconic music. She leaves a legacy of [13] _____, humility, and a reminder to be kind to one another.

P20 I think everybody should be treated with [14] _____. I hope that everybody gets a chance to be who and what they are.

P21 Elon Musk's SpaceX says it's planning to build what could become the biggest rocket [15] _____ on Earth in Louisiana.

P22 SpaceX unveiled plans for a massive $100 billion spaceport near Louisiana's Gulf Coast. [16] _____ is expected to begin next year, with the first launch targeted for 2029. They are calling it Starbase Louisiana, a play off SpaceX's existing starbase in South Texas, where the company develops and tests its massive Starship rocket.

P23 And get this, Musk says the Louisiana site could eventually have more than a dozen launch towers capable of supporting more than 30 flights each day. That's more like an airport [17] _____. But before anyone starts packing for Mars, this thing still has to get off the ground here on Earth.

P24 The enormous project faces regulatory and environmental reviews particularly significant because it would be built along Louisiana's [18] _____ Gulf Coast.

P25 Pop quiz hot shot. Which country has produced the most number one hits on America's Billboard Hot 100 by artists born outside the U.S.? Australia, Canada, United Kingdom, or Sweden?

P26 If you said the United Kingdom, ding ding! Correct.

P27 The Brits have been topping the charts for decades. Down under, there is a new debate about who or what deserves a spot on the charts. In Australia, artificial intelligence is shaking up the music charts and stirring up some very human [19] _____.

P28 The Australian Recording Industry Association, known as ARIA, announced this week that music generated entirely by AI will no longer be [20] _____ for its official charts, ranking the country's biggest songs. The decision follows controversy surrounding an Australian DJ's AI-assisted cover of Madonna's Like a Prayer, which became a chart hit. Apparently AI was living on a prayer, ARIA said, not on our chart.

P29 The organization says the goal is to protect the human nature of artistry. Important distinction, AI isn't completely banned. Recordings that use generative AI in a [21] _____ will still be eligible.

P30 We're just not really interested in celebrating the success of AI-generated music, and particularly when it takes the spot of an Australian artist in our charts.

P31 The move comes amid a broader fight over music rights in the age of AI, with organizations like the Recording Industry Association of America and the Grammys pushing for stricter [22] _____ over AI-produced tracks.

P32 So what do you think? Should entirely AI-generated music be allowed to compete against songs created and performed by humans? How would you balance [23] _____ while staying true to an artist's vision? Feel free to press pause and ruminate solo or discuss with friends. Preferably human ones.

P33 Now to a promising new development in the world of medicine. The U.S. Food and Drug Administration, or FDA, has cleared a new blood test to help identify signs of Alzheimer's disease in people aged 55 and older with [24] _____.

P34 It allows doctors to use biomarkers to help identify patients who are likely or unlikely to have Alzheimer's-related brain changes. Alzheimer's is a fatal progressive brain disorder where [25] _____ called amyloid plaques build up in the brain, causing cell death and brain damage. The disease affects more than 7 million Americans and is one of the leading causes of death in those over 65.

P35 The test, which was developed by pharmaceutical companies Roche and Eli Lilly, received [26] _____ in Europe earlier this year. While no price has been announced, Roche says it can be run on more than 4,500 existing labs across the country.

P36 Biomarker blood tests offer a possible alternative to traditionally expensive and [27] _____ used to identify the disease, including brain scans and spinal taps.

P37 If you think this summer's been hot, imagine wearing a fur coat all day.In Tokyo, where extreme summer temperatures have been downright rough, a fan-powered suit is helping dogs beat the heat. Our Scout Richards has more on one seriously fetching invention.

P38 These are some hot dogs, and this invention is supposed to cool them down. Yes, those are tiny battery-powered fans strapped to a dog. The puffy pet jackets were created by Tokyo-based [28] _____ company Sweet Mommy as Japan swelters through extreme summer heat.

P39 I have never lived in a hotter country than here. It is very dangerous even for us humans and for dogs who cannot sweat like us. It's even worse.

P40 So how does this thing actually work? Two battery-powered fans pull air into the jacket, while an [29] _____ in the collar helps cool the air before it circulates around the animal's body. And apparently there's a market for canine cooling. Sweet Mommy says it has sold nearly 10,000 of the pet suits since launching the first version in 2022. The latest model costs about $104.

P41 Yeah, I'm very excited that there is at least one brand here that thinks about the well-being of our fur babies in such conditions.

P42 Today's story, getting a 10 out of 10, Baby Shark gets a glow up.

P43 The seven-year-old boy featured in the most viewed video in YouTube history is now a K-pop star, has been playing in the White House, launched countless trends, and racked up more than 17 billion views on YouTube. It's Baby Shark Dance, and one of the video's stars is now starting a music career of his own. Park Geon-roung, known as Baby Shark Boy, released his debut single, Wave, which begins with a [30] _____ that might sound a little familiar.

P44 Baby Shark Boy says the song represents a new beginning for him as an artist. Here is hoping his career has some serious bite. All right, that's about all we have for our show today.

P45 But before we go, you know what time it is. It is shout-out time. This one goes to Mr. Marshall at Shippensburg High School in my home state of Pennsylvania.

P46 Thank you for subscribing and commenting on our CNN10 YouTube channel and leaving such a kind comment. I miss all my wrestling and football days up there at Shippensburg.

P47 And this next shout-out goes to Ms. Pomikpik at Yamato Colony School in Livingston, California.

P48 They made this custom puzzle of their class watching the show, and I was a bit puzzled at first as to why there was a piece missing. And I'm thinking, first of all, that is very sweet. Second of all, if that's supposed to be me, you found me.

P49 Shine on, sunshine. That's our 10 for the day. Be curious, be kind, and remember, you don't have to change the world today.

P50 Just make your corner shine a little brighter. I'm Coy Wire, and we are CNN10.
