01 What's up, sunshine? This is CNN 10. And today we have fire season rewriting record books. Why America just hit the brakes on foreign made robots and a cyclist taking the ultimate NFL road trip with nothing but two wheels and a whole lot of grit.

阳光伙伴们，大家好！这里是CNN 10。今天，野火季正在改写纪录，美国为何突然限制外国制造的机器人，还有一位骑行者只凭两个轮子和满腔毅力，展开终极NFL公路之旅。

02 I'm Coy Wire. And we begin today with the Pacific Northwest where destructive wildfires are wreaking havoc across Washington and Oregon, as the states endure their worst fire season in more than 30 years. In Washington's Spokane County, a trio of fires has consumed more than 10,000 acres so far with zero percent containment since they started over the weekend.

我是科伊·怀尔。先看美国太平洋西北地区。华盛顿州和俄勒冈州正经历三十多年来最严重的野火季，破坏性的山火肆虐两州。华盛顿州斯波坎县三场大火自周末燃起以来，已吞噬一万多英亩土地，目前控制率仍为零。

03 The fires have forced the evacuation of nearly 65,000 in Spokane area alone, and more than 700 structures have been destroyed.

仅斯波坎地区，就有近六万五千人被迫撤离，七百多栋建筑遭到毁坏。

04 This all happened in a matter of hours. In other words, individuals woke up in their homes Saturday morning. In a matter of hours, their homes and neighborhoods were just wiped out. This happened very, very quickly.

这一切发生在短短几个小时内。也就是说，人们周六早上还在家里醒来，几小时之后，他们的家园和整个街区就被夷为平地。事情发生得非常、非常快。

05 No injuries or deaths have been confirmed as of this taping, but officials said that the scale of the fires means it will take time to fully evaluate.

截至录制时，尚未确认有人员伤亡，但官员表示，火灾规模巨大，需要时间才能完成全面评估。

06 Law enforcement says a man has been arrested on an arson charge in connection with one of those, and fire officials are still investigating the cause of the other blazes. The Pacific Northwest isn't the only region feeling the impact from wildfires. More than 27,000 firefighters across the country are battling at least 100 uncontained fires as of this taping, and that was just this week alone.

执法部门称，一名男子因与其中一场火灾有关而被以纵火罪逮捕，消防官员仍在调查其他火灾的起因。受到影响的不只太平洋西北地区。截至录制时，全国两万七千多名消防员正在扑救至少一百场尚未受控的火灾，而且这还只是本周的情况。

07 Wildfires have scorched at least 5.3 million acres across the country so far this year, already surpassing last year's total for the entire year.

今年以来，全美至少已有五百三十万英亩土地被野火烧毁，已经超过去年全年的总量。

08 We've shown you videos of robot dogs, humanoid robots. Well, now importing those will be banned in the U.S. The U.S. Federal Communications Commission, or FCC, says that importing advanced robotics from certain foreign countries poses an unacceptable risk to the national security of the United States. Our Mike Valerio will tell us more.

我们曾展示过机器狗和人形机器人的视频。现在，美国将禁止进口这些产品。美国联邦通信委员会，也就是FCC表示，从某些外国进口先进机器人，对美国国家安全构成不可接受的风险。迈克·瓦莱里奥带来更多报道。

09 You want to bring a robot like this from China into the United States? Well, forget it. New foreign robots are now banned.

想把这样的机器人从中国带进美国？那可不行了。新进口的外国机器人现在已被禁止。

10 The Federal Communications Commission in Washington just ruled advanced robotic devices produced in foreign countries, quote, pose an unacceptable risk to the national security of the United States. The ban only applies to new imports, not any devices already stateside.

华盛顿的联邦通信委员会刚刚裁定，外国生产的先进机器人设备“对美国国家安全构成不可接受的风险”。禁令只针对新进口产品，不涉及已经在美国境内的设备。

11 This comes after robots from Chinese companies like Unitree have wowed millions on social media, becoming more familiar to Americans, and even taking the stage on America's Got Talent.

此前，宇树科技等中国企业的机器人在社交媒体上惊艳数百万观众，逐渐为美国人熟悉，甚至登上《美国达人秀》的舞台。

12 So the U.S. government now says that relying on foreign produced advanced robotic devices presents unacceptable supply chain and cybersecurity vulnerabilities.

因此，美国政府现在表示，依赖外国制造的先进机器人设备，会造成不可接受的供应链和网络安全漏洞。

13 Gesundes say advanced robotic devices collect data that could be leveraged by malign actors to surveil Americans, enhance the capabilities of foreign intelligence services, or to remotely commandeer the robots.

有关方面表示，先进机器人设备会收集数据，恶意行为者可能利用这些数据监视美国人、提升外国情报机构的能力，或者远程接管机器人。【原稿句首主体疑有听写误差。】

14 90% of the world's humanoid robots are made in China, with more than 140 companies competing in a crowded and quickly expanding market.

全球百分之九十的人形机器人在中国制造，一百四十多家企业在这个拥挤且迅速扩张的市场竞争。

15 Robotics companies and China's Ministry of Commerce for now are not publicly reacting. The move is another potential point of friction as the U.S. and China try to stabilize ties. The FCC says it's possible to avoid the ban if a company applies for an exception, proving the product does not pose a risk and that's signed off by the Pentagon.

机器人企业和中国商务部目前尚未公开回应。在中美试图稳定关系之际，这一举措可能成为新的摩擦点。FCC表示，企业若申请例外，证明产品不构成风险并获五角大楼批准，就有可能不受禁令限制。

16 This imports ban mirrors other U.S. prohibitions of Chinese tech, like communications equipment from Huawei and Chinese EVs kept out of the U.S. market.

这一进口禁令与美国针对其他中国科技产品的禁令类似，例如华为通信设备，以及被挡在美国市场之外的中国电动车。

17 Now to a story about the impact that space junk is having on the moon. And by impact, I mean literally.

接下来讲太空垃圾对月球的“撞击”。这里的撞击，是字面意义上的。

18 A piece of SpaceX Falcon 9 rocket slammed into the moon earlier this week at nearly seven times the speed of sound. The rocket launched about 18 months ago, and its upper stage was intentionally left drifting through space after completing its mission. Normally, leftover rocket parts eventually fall back to Earth and burn up as they enter our atmosphere.

本周早些时候，SpaceX“猎鹰9号”火箭的一部分，以接近七倍音速撞上月球。火箭大约十八个月前发射，上面级完成任务后被有意留在太空漂流。通常，剩余火箭部件最终会落回地球，在进入大气层时烧毁。

19 Not this one. Officials say it blasted a crater roughly the size of a Major League Baseball infield. No one could actually see it happen with the naked eye.

但这一次没有。官员表示，它撞出了一个面积大约相当于美国职棒大联盟球场内场的陨石坑。没有人能用肉眼直接看到撞击发生。

20 Instead, astronomers used a special telescope to see glowing plumes of lithium and sodium gas being kicked into space, almost like the moon briefly left behind its own cosmic fingerprint.

天文学家借助特殊望远镜，看到了被抛向太空、发光的锂和钠气体羽流，仿佛月球短暂地留下了自己的宇宙指纹。

21 Pop quiz, hot shot. Which U.S. state is home to the only native population of Venus flytraps?

随堂小测验，高手接招！美国哪个州拥有唯一的原生捕蝇草种群？

22 Florida, Hawaii, North Carolina, or California?

佛罗里达、夏威夷、北卡罗来纳，还是加利福尼亚？

23 If you said North Carolina, you so fly.

如果你选北卡罗来纳，那你可真“飞”凡！

24 Venus flytraps only thrive in bogs and wetlands. In the wild, nearly all of them grow within a tight 70 to 100 mile radius around Wilmington, North Carolina.

捕蝇草只在泥炭沼泽和湿地中茁壮生长。野生捕蝇草几乎都集中在以北卡罗来纳州威尔明顿为中心、半径仅七十到一百英里的范围内。

25 More than 150 years after evolutionary scientist Charles Darwin made a bold prediction, science just proved him right.

进化论科学家查尔斯·达尔文提出大胆预测一百五十多年后，科学刚刚证明了他的观点。

26 Darwin believed certain carnivorous plants like Venus flytraps didn't just trap insects, they actually digested them. Back then, he didn't have the technology to prove it. Now, scientists in China use modern genetic and chemical testing on a plant called the saxifraga and confirm that those sticky little plants really do absorb nutrients like nitrogen from the bugs they catch.

达尔文认为，捕蝇草等某些食虫植物不仅会捕捉昆虫，还会真正消化它们。当时他没有技术来证明。如今，中国科学家运用现代遗传和化学检测，对一种名为虎耳草的植物进行研究，确认这些黏黏的小植物确实会从捕获的昆虫中吸收氮等营养物质。

27 Darwin also believed carnivorous plants evolved because they grew in nutrient-poor soil. Turns out he nailed that too. Carnivorous plants still get most of their energy via photosynthesis, just like other plants.

达尔文还认为，食虫植物演化出这种能力，是因为它们生长在贫瘠土壤中。事实证明，这一点他也说对了。和其他植物一样，食虫植物的大部分能量仍来自光合作用。

28 NFL players spend months preparing for a season, one fan is spending 10,000 miles getting ready for week one. 22-year-old ultra-endurance cyclist Bond Almand is currently on a 10,000 mile quest to visit all 30 stadiums by bike ahead of the league's kickoff in Seattle next month. That's roughly the distance from New York to Tokyo and halfway back.

NFL球员用几个月备战赛季，而一位球迷用一万英里的骑行迎接第一周比赛。22岁的超耐力骑行者邦德·阿尔曼德，目前正进行一万英里的挑战，计划在联盟下月于西雅图揭幕前，骑车到访全部三十座球场。这大约相当于从纽约到东京，再返回一半路程。

29 One of our fearless CNN 10 teammates, Brendan, caught up with Bond outside of Atlanta's Mercedes-Benz Stadium to hear how the trip is going and see what motivates him to push himself to the limit in pursuit of greatness.

我们CNN 10勇敢的团队成员布伦丹，在亚特兰大梅赛德斯-奔驰体育场外采访了邦德，了解旅途进展，以及是什么驱使他挑战极限、追求卓越。

30 Most mornings when I wake up, I do not want to get on the bike, I'll be honest. And after a couple hours of riding, I've warmed up, I feel good, I'm loving it.

说实话，大多数早晨醒来时，我都不想上自行车。但骑上几个小时、热身之后，我会感觉很好，又爱上骑行了。

31 The bike can take me anywhere, it's a great way to explore.

自行车能带我去任何地方，是探索世界的好方式。

32 This is Bond Almand, a one-of-a-kind ultra endurance cyclist who's taking his sport to the next level, one pedal at a time. At just 22 years old, he already has five world records.

这就是邦德·阿尔曼德，一位独一无二的超耐力骑行者，正一步步踩着踏板，把运动推向更高境界。他只有22岁，就已经拥有五项世界纪录。

33 In 2024, he shattered the record for fastest north-south Pan-American bike crossing, completing all 14,000 miles from Alaska to Argentina in just 75 days, all of this while balancing his studies at Dartmouth College. Now, the recent grad is spending his summer chasing a new goal, crisscrossing the country on a quest to visit all 30 NFL stadiums. The epic odyssey is the brainchild of Extreme Networks, who pitched the idea to Bond earlier this summer, and even he couldn't believe it.

2024年，他打破了南北纵贯泛美公路骑行最快纪录，仅用75天完成从阿拉斯加到阿根廷的一万四千英里，同时还兼顾达特茅斯学院的学业。如今刚毕业的他，在夏天追逐新目标：横穿全国，骑访三十座NFL球场。这段史诗般旅程由Extreme Networks公司构思，并在今年夏初向他提出，连他本人都难以置信。

34 He originally came to me with the idea, and I was like, that's a great idea, but yeah, there's no way that ever happens. And then he called me a week later and was like, okay, we're all set. Bond set out from Miami on July 7th, carrying a special NFL game ball destined for the league's kickoff game in Seattle on September 9th.

他一开始告诉我这个想法时，我说：“主意很棒，但根本不可能实现吧。”一周后，他又打电话说：“好了，一切就绪。”邦德于7月7日从迈阿密出发，带着一颗特别的NFL比赛用球，要将它送到9月9日在西雅图举行的赛季揭幕战。

35 The scenic, and I mean scenic route, is giving him a view of the country that few people ever get to see. But the trip is anything but a leisure ride. Bond is averaging up to 200 miles per day, sometimes climbing as much as 20,000 feet. That's like summiting Mount Kilimanjaro, and mileage like that takes a physical and mental toll.

这条风景路线，而且真的是大绕远的风景路线，让他看到鲜有人能见到的美国面貌。但这绝不是休闲骑行。邦德平均每天最多骑行两百英里，有时累计爬升两万英尺，相当于攀上乞力马扎罗山。这样的里程会给身心带来压力。

36 summit [ˈsʌmɪt] v. to climb to the summit of (a mountain).

summit，动词：登上一座山的顶峰。

37 The cumulative fatigue every single day, that stress in your body, it's hard to understate. Obviously, I'm one person, but there's like a side of me that wants you to stop and rest. Those two sides have to make peace.

每天积累的疲劳、身体承受的压力，怎么说都不为过。显然我只有一个人，但内心有一部分想让自己停下休息。这两种念头必须达成和解。

38 His biggest challenge so far, not the hills, the heat. Bond is losing gallons of sweat every day, so he's found some unique ways to stay hydrated.

到目前为止，他最大的挑战不是山坡，而是炎热。他每天流失几加仑汗水，因此找到了一些特别的补水办法。

39 I take a lot of table salt and just pour it straight into my water bottle. You can kind of see the salt on your skin, that's all that sodium you're losing. My favorite drink hack is coffee creamer.

我会把很多食盐直接倒进水壶。皮肤上能看到盐，那就是流失的钠。我最喜欢的饮品小妙招是咖啡奶精。

40 If you get a bottle of coffee creamer like this, it has several thousand calories in it.

像这样一瓶咖啡奶精，里面就有几千千卡热量。

41 From serene back roads to bustling city centers, Bond is documenting the entire trip on social media, hoping it'll help raise awareness for other cyclists.

从宁静的乡间小路到繁忙的市中心，邦德把全程记录在社交媒体上，希望帮助更多人关注骑行者。

42 I've been hit by a couple cars before and that really rattles me.

我以前被汽车撞过几次，真的让我心有余悸。

43 It's always in the back of the mind on the bike and it's part of why I love biking and sharing my story is to kind of get people more familiarized with biking. And if a couple of drivers can see my videos and be excited about biking, maybe give the next biker a little bit more space when they pass, then that's a huge win.

骑车时，这件事总在心里挥之不去。我热爱骑行并分享故事，部分原因就是想让人们更熟悉这项活动。如果有几个司机看到视频后也对骑行感兴趣，下次超越骑行者时多留一点空间，那就已经是巨大的成功。

44 By the time Bond rolls into Lumen Field on September 9th, he'll have clocked more than 10,000 miles, about the same amount most people put on their cars in a year.

等邦德9月9日骑进流明球场时，他将累计骑行超过一万英里，大约相当于大多数人一年的驾车里程。

45 And on a trip this big, sometimes the biggest challenge isn't the terrain, it's staying motivated.

在这样漫长的旅途中，最大的挑战有时不是地形，而是保持动力。

46 One thing that I've suffered with a bit is burnout. I do love my bike and it brings me a lot of joy, but there are days when it just doesn't.

我有时会受到倦怠困扰。我确实爱自行车，它给我带来很多快乐，但有些日子并非如此。

47 So having that like higher purpose, like what is the goal of riding, why am I doing this, is always important.

所以，心中有更高的目标，总是很重要：骑行的目的是什么，我为什么做这件事?

48 His advice for the next generations of endurance cyclists looking to make their own marks?

对于希望留下自己印记的新一代耐力骑行者，他有什么建议?

49 Believe in yourself more than anything. I was always told from a young age, like do whatever you love, follow your dreams. I think that's 100% true, but it's more complicated than that. I think it's do what you love, but have intention, have some idea of where you want it to take you.

最重要的是相信自己。从小就有人告诉我，要做自己喜欢的事、追随梦想。我认为这完全正确，但情况更复杂一点：做热爱的事，同时要有明确意图，要知道自己希望它把你带向哪里。

50 For Bond, that somewhere is chasing the horizon one mile at a time.

对邦德来说，那个方向就是每前进一英里，都继续追赶地平线。

51 Today's story, getting a 10 out of 10, who let the dogs out?

今天获得“十分满分”的故事：是谁把狗狗放出来啦？

52 Dozens of four-legged surfers took on some radical waves in Northern California at the 10th annual World Dog Surfing Championship this week. Spectators flocked to the beach and judges scored the pups on how long they could stay on their board, wave size, and confidence.

本周，数十只四足冲浪高手在北加州挑战强劲海浪，参加第十届世界狗狗冲浪锦标赛。观众涌向海滩，裁判根据狗狗站在板上的时长、浪的大小和自信程度评分。

53 Surfing is amazing anyways, right, because you're you're community with nature, it's you've got the solitude, you got the Indian, you got the excitement, and then you mix in your best friend because then you're working together as a team to accomplish something.

冲浪本来就很棒，对吧？因为你与自然相连，有独处的宁静，也有兴奋感；再加上最好的朋友，你们就成了一个团队，共同完成一件事。【原稿中间有一处词语疑误，按上下文译意。】

54 The contest was cut short because of some rough waves before the final surf off, but that just means they're all winners in our hearts.

由于海浪过猛，比赛在最终决赛前提前结束，但这也意味着，在我们心里它们都是赢家。

55 All right superstars, we're sending some love today. First, we're going to reach Columbus in Indiana. Thank you for your kind letters. We are so glad you spent part of your summer with us.

好了，超级明星们，今天送出一些关爱。首先是印第安纳州哥伦布的伙伴们。谢谢你们热情的来信，很高兴你们用部分暑假时间陪伴我们。

56 And this next shout out goes to Coach Bradley at White House Heritage High School in Tennessee. Rise up. Thank you for commenting and subscribing to our CNN 10 YouTube channel.

下一组致意送给田纳西州怀特豪斯传统高中的布拉德利教练。打起精神！感谢你在CNN 10的YouTube频道留言并订阅。

57 Go out, make someone smile, make someone laugh this weekend.

这个周末，走出去，让某个人微笑，让某个人开怀大笑。

58 Remember, you are more powerful than you know. I'm Coy Wire and we are CNN 10.

记住，你比自己想象的更有力量。我是科伊·怀尔，这里是CNN 10。
