大家好，周五快乐！欢迎收看最后一期夏季版CNN 10。周末过后，我们将恢复周一到周五的正常播出。在投入周末之前，先看看过去这个周末的一些重要新闻。

02 We will start with the heartbreaking story still developing in Colombia.The South American nation has been devastated by a 7.4 magnitude earthquake, the strongest to hit Colombia in a decade. The quake struck Monday in the western region, sending shockwaves through cities across the country and prompting the government to declare a national disaster.

首先关注哥伦比亚仍在发展的悲痛消息。这个南美国家遭遇了7.4级地震，是十年来袭击哥伦比亚的最强地震。地震周一发生在西部地区，震动波及全国多个城市，政府宣布进入国家灾难状态。

03 As of this taping, more than 200 people have been killed, hundreds more injured, a number that's expected to rise as rescue crews continue to work around the clock. Our Reid Binyan has a look at the race to find survivors and how the world is reacting.

04 Colombia's president on Tuesday touring areas devastated by the massive earthquake that rocked the country Monday, the government declaring a national disaster as the nation's army deploys forces to the most gravely devastated areas.

哥伦比亚总统周二视察了周一强震重创的地区。政府宣布国家灾难，军队向灾情最严重的地区部署力量。

05 Some areas hard to reach, including near the quake's epicenter, have yet to receive help, according to one indigenous leader. A United Nations official says distribution of food is critical in the coming days. World leaders are offering assistance, and so are aid groups.

一位原住民领袖表示，包括震中附近在内的一些偏远地区，仍未得到援助。联合国一名官员称，未来几天分发食物至关重要。世界各国领导人和援助组织都在提供帮助。

06 We've already deployed a team. They're already on the ground. The devastation is vast, and it covers a large geographical area.

12 High school students will be required to verbally defend their written assignments and any exams written at home as part of emergency measures aimed at combating the trend.

作为遏制这一趋势的紧急措施，高中生必须对书面作业，以及在家完成的任何考试进行口头答辩。

13 The rules take effect immediately and apply to students in upper secondary education, which typically begins around age 16. The country's Ministry of Education is also calling on high schools to use tools to monitor student screens during exams, as well as firewalls to filter the content they can access during exams and in class.

规定立即生效，适用于通常约16岁开始的高中阶段学生。该国教育部还要求高中使用工具，在考试中监控学生屏幕，并通过防火墙过滤考试和上课时可访问的内容。

14 They're also encouraging schools to get students to complete more assignments in school under controlled environments to make supervision easier.

他们也鼓励学校，让学生在校内受控环境中完成更多作业，便于监督。

15 Pop quiz, hot shot. Which part of the moon's shadow produces a total solar eclipse, penumbra, umbra, corona or terminator?

随堂小测验，高手接招！月球影子的哪一部分会产生日全食？半影、本影、日冕，还是晨昏线？

16 Go ahead and moonwalk if you said umbra.

如果你选本影，就来跳一段月球漫步吧！

17 The moon's orbit is tilted relative to Earth's orbit around the sun, so in order for a total solar eclipse to occur, all three must be perfectly aligned.

月球轨道相对于地球绕太阳的轨道存在倾角，所以日全食发生时，三者必须恰好排列成一条直线。

18 The celestial sky put on quite a show this past week. A total solar eclipse crossed over Iceland, Greenland, Spain and Russia.

过去一周，天空上演了一场精彩大秀。日全食带横跨冰岛、格陵兰、西班牙和俄罗斯。

19 For about two minutes, the moon lined up perfectly with the sun, plunging several countries into darkness.

大约两分钟里，月球与太阳完美重合，使几个国家陷入黑暗。

20 A glowing white halo of light called the corona emerged around the dark disk of the moon. Folks who saw it were feeling all sorts of emotions.

在月球黑色圆盘周围，出现了称为日冕的白色光晕。亲眼目睹的人百感交集。

21 It was fantastic. Really touching, something that I have never seen before. It went completely dark and suddenly the day came again.

太精彩了，真的很感人，是我从未见过的景象。天完全黑下来，然后白昼突然又回来了。

22 I felt goosebumps because it just makes us think about, I don't know, the shortness of life and how time can be different.

我起了鸡皮疙瘩，因为它让人思考，我也说不清，生命的短暂，以及时间可以多么不同。

23 And in a rare alignment on Thursday morning, did you catch any of this? The northern hemisphere got a dazzling look at the Perseid meteor shower. Every August, Earth passes through debris left behind by Comet Swift-Tuttle.

周四清晨还出现了难得的天象巧合，你看到了吗？北半球迎来了壮观的英仙座流星雨。每年八月，地球都会穿过斯威夫特-塔特尔彗星留下的碎屑带。

24 NASA says there were excellent viewing conditions because the peak of the shower coincided with a moonless new moon, allowing stargazers to spot 50 to 100 meteors per hour. NASA says the Perseids are the very best meteor showers to observe from Earth.

美国航天局表示，这次观测条件极佳，因为流星雨峰值恰逢没有月光干扰的新月，观星者每小时可看到五十到一百颗流星。美国航天局称，英仙座流星雨是地球上最值得观测的流星雨。

25 This next story comes with a lesson. Do not mess with Harry Potter superfans. The Greenlink interconnector is one of Europe's most important energy projects. It's an undersea cable that's designed to connect the electricity grids between Ireland and Wales at a price of more than half a billion dollars.

下一个故事给我们一条教训：别惹《哈利·波特》的超级粉丝。“绿链互联”是欧洲最重要的能源项目之一，一条连接爱尔兰与威尔士电网的海底电缆，造价超过五亿美元。

26 But it was originally planned to slice right through a Harry Potter filming location, one that has become somewhat of a sacred spot for Potter fans. Our Ivana Skotola is here with what happened next.

但它最初规划的线路，要穿过《哈利·波特》的一处拍摄地点，而那里已成为粉丝心中的圣地。伊万娜·斯科托拉带来后续故事。

27 Harry Potter fans managed to get an electricity project rerouted, all to protect Dobby's grave.

《哈利·波特》粉丝成功促使一项电力工程改线，目的就是保护多比的墓地。

28 The grave is actually a memorial for the fictional character on a beach in Wales where Dobby's death scene was filmed. It's a popular tourist spot where fans leave stones, and some travel across the world to visit. The Greenlink interconnector carries electricity between Britain and Ireland through cables going under the Irish Sea.

这座“墓”实际上是为虚构角色设置的纪念地，位于威尔士一片拍摄多比死亡场景的海滩。这里是热门旅游点，粉丝会留下石头，有些人甚至从世界另一端赶来。“绿链互联”通过爱尔兰海海底电缆，在英国与爱尔兰之间输送电力。

29 During the project's development, its planned route was set to go through the fan-made memorial to Dobby the Elf. That's before fans caught wind of the plan, former project manager Simon Ludlam said in a podcast. He said they received hundreds of calls protesting the route after the plans were revealed.

项目开发时，原规划线路会穿过粉丝为小精灵多比建造的纪念地。前项目经理西蒙·勒德勒姆在播客中说，后来粉丝得知了计划，方案公开后，项目方接到数百通抗议线路安排的电话。

30 So they ultimately changed the planned route to avoid the grave. It's actually not the first time the memorial has been saved. In 2022, the National Trust considered removing it or relocating it because of the environmental impact it was having on the beach.

最终，他们修改了规划线路，避开墓地。这也不是纪念地第一次获救。2022年，英国国民信托因其对海滩环境的影响，考虑拆除或迁走它。

31 In the end, they decided that it could stay open as long as visitors stopped leaving socks and other items that could harm the environment.

最后，他们决定允许纪念地继续保留，前提是游客不再留下袜子等可能损害环境的物品。

32 Now to a story that is proof that people are never too young to dream big, and it's never too late to make those dreams a reality. When Tahira Reid-Smith was in third grade, she drew a picture of something she always wished she could have, an automated double-Dutch jump rope machine.

接下来的故事证明，追求远大梦想不分年龄，实现梦想也永远不晚。塔希拉·里德-史密斯上三年级时，画出了自己一直想拥有的东西：一台自动双绳跳绳机。

33 Now four decades later, she's an engineer, and she has turned her childhood dream into a rope-spinning reality. I'll skip the puns and let our Scout Richards jump right in for more.

如今四十年过去，她成了工程师，把童年梦想变成真正会转动绳子的机器。我就不玩谐音梗了，让斯考特·理查兹直接“跳”进故事。

34 This third-grade drawing became a real invention.

这幅三年级时画的画，变成了一项真实发明。

35 This was in 1986, and all I remember the assignment was to draw a picture of something you wish you could have. And I was an only child at the time. I loved jumping double-dutch.

那是1986年。我只记得作业要求画出一样希望拥有的东西。当时我是独生女，又特别喜欢双绳跳绳。

36 Now an engineering professor, Reid-Smith turned her childhood idea into a real automated double-dutch machine prototype that turns the rope for you. And she even reunited with her third-grade teacher in the Bronx to show her what became of that assignment.

现在是工程学教授的里德-史密斯，把童年构想做成了真正的自动双绳跳绳机原型，能替你摇绳。她还回到布朗克斯，与三年级老师重聚，展示当年那份作业结出了怎样的果实。

37 I was really emotional about it this morning. There's a real teacher that I had that was part of that memory.

今天早上我特别激动。那段回忆里，有一位真实存在、教过我的老师。

38 Tahira has certainly shown me that anything is possible. And if you have an idea in mind, don't give up on your dream. Go up a little faster.

塔希拉让我看到，一切皆有可能。如果你心里有想法，就别放弃梦想。再快一点！

39 Members of Chicago's 40-plus double-dutch club got to give the machine a whirl.

芝加哥“四十岁以上双绳跳绳俱乐部”的成员，有机会试了试这台机器。

40 If you have a turning machine, then anybody can jump. And it's even something that can help people learn how to jump.

如果有摇绳机器，任何人都可以跳。它甚至还能帮助人们学习怎么跳。

41 Now, Reid-Smith hopes to bring her invention, aptly called Jump Dreams, into production.

现在，里德-史密斯希望将这项恰如其名的发明“跳跃梦想”投入生产。

42 All right, this week's story, getting a 10 out of 10 is you.

好了，本周获得“十分满分”的主角，就是你们。

43 The 10th of the month was Monday, so that means we are highlighting some of our viewers' top moments of 2026 so far. A lot of international submissions this month, so let's kick it off in China, where Wei Ling just passed her national postgraduate entrance exam and she received an offer from her dream university. She says, It is my proudest yes-I-did-it moment of the whole year. We are so happy for you and love seeing your two furry fans celebrating with you. It is purr-fect. Congratulations, Gong Xi!

本月十号是周一，所以我们要展示观众们2026年至今的精彩时刻。本月有很多海外投稿，先看中国：魏玲刚通过全国硕士研究生入学考试，收到了梦想大学的录取通知。她说：“这是我全年最自豪的‘我做到了’时刻。”我们真为你高兴，也很喜欢看到两位毛茸茸的小粉丝与你一起庆祝。简直“喵”不可言。祝贺你，恭喜！

45 Finally, let's head to Dagsboro, Delaware, here in the United States. Mrs. Sensman shared these photos of the Indian River School Unified Basketball Team, which represented the state of Delaware in this year's Special Olympics.

最后来到美国特拉华州达格斯伯勒。森斯曼老师分享了印第安河学校融合篮球队的照片，他们代表特拉华州参加了今年的特殊奥林匹克运动会。

46 After a hard-fought tournament, these Olympians brought home silver medals, and their state could not be more proud. Neither can we. Way to go, and thank you for sharing such a momentous accomplishment with us.

经过激烈角逐，这些运动员带回了银牌，全州都为他们无比自豪，我们也是。干得漂亮，感谢你们分享这一重大成就。
