01 Hello, and welcome to the show. New season, new stories, new moments that could change the world and maybe even change us. I'm Coy Wire.

大家好，欢迎收看节目。新一季、新故事，还有可能改变世界、甚至改变我们自己的新时刻。我是科伊·怀尔。

这里是CNN 10，用十分钟走访各地、认识不同的人、提出问题，一起增长见识。新闻不靠吼叫，不夹带观点，也不偏向某一方。我只告诉你发生了什么，由你决定如何思考。

03 The world moves fast, but we've got the best 10 minutes in news to keep up. CNN 10 is back. We begin today with Mother Nature reminding us who's boss.

世界变化飞快，但我们有最精彩的十分钟新闻，陪你跟上脚步。CNN 10回来了。今天先看大自然如何提醒我们，谁才是主宰。

04 Several significant earth science stories across the globe, starting in Hawaii, where Hurricane Lala battered the islands over the weekend, its eyewall brushing Hawaii's big islands Saturday as the Category 1 storm moved west. A hurricane does not have to make landfall to cause major damage. Lala didn't, but its impact was felt across the state.

全球出现了几条重要的地球科学新闻，先看夏威夷。飓风拉拉周末袭击群岛，周六作为一级飓风向西移动时，眼墙擦过夏威夷大岛。飓风无需登陆也能造成严重破坏。拉拉并未登陆，但全州都受到影响。

05 Videos obtained by CNN show a surreal scene where torrential rainfall and sustained 80 mile per hour winds left more than 130,000 customers without power. That's about 70% of the big island. It's been really surreal and kind of unreal that we're getting like Lala like right now.

CNN获得的视频展现了令人难以置信的场景：暴雨和持续每小时八十英里的风速，导致十三万多用户断电，约占大岛的百分之七十。“现在真的遭遇拉拉，感觉特别不真实，简直难以相信。”

06 And it said like in three decades we haven't got one like this big.

据说，我们已经三十年没有遇到这么强的风暴了。

07 Hawaii's governor announced at least one person had been killed in a storm related car accident. Emergency crews are working around the clock to restore power and rescue stranded residents.

夏威夷州长宣布，至少一人在与风暴有关的车祸中死亡。应急人员正昼夜不停地恢复供电，营救被困居民。

08 Lala was downgraded to a tropical storm Sunday as it continued northwest across the rest of the state, dumping more than two to three feet of rain in some areas in less than 24 hours. Tropical storms typically hit cooler ocean temperatures as they approach Hawaii, but Lala remained over warmer waters due to an ongoing maritime heat wave in the Pacific thanks to the developing Super El Nino.

拉拉周日降级为热带风暴，继续向西北穿过该州其他地区，部分地方不到二十四小时就降下两到三英尺以上的雨量。热带风暴靠近夏威夷时通常会遇到较冷海水，但由于正在发展的超级厄尔尼诺引发太平洋持续海洋热浪，拉拉一直位于较暖海面之上。

09 Now to Indonesia, where rescuers are racing the clock to search for survivors following a series of severe earthquakes.

接下来看印度尼西亚。一系列强震过后，救援人员正与时间赛跑，寻找幸存者。

10 Officials say a 7.7 magnitude quake struck off the coast of Flores Island, home to roughly two million people and the popular tourist hotspot Bali, around 6 a.m. local time Saturday morning. Just hours after the first earthquake, another 6.9 magnitude quake rattled northern Sumatra, followed later by a third 5.7 magnitude quake roughly 600 miles to the north. Flores experienced nearly 1,000 aftershocks following the initial quake.

官员表示，当地时间周六清晨约六点，拥有约两百万人口的弗洛勒斯岛附近海域发生7.7级地震；原稿此处还提及热门旅游地巴厘岛，但地理表述不清。首场地震仅数小时后，苏门答腊北部又发生6.9级地震，随后其北方约六百英里处发生第三场5.7级地震。首震之后，弗洛勒斯岛经历了近一千次余震。

11 Roughly 1,300 homes across the island were severely damaged, forcing many residents to flee with just the clothes on their backs.

岛上约一千三百栋房屋严重受损，许多居民来不及带上任何物品，就穿着身上的衣服逃离。

12 At the moment we don't dare go home just yet because the situation isn't stable. We still worry that there might be more tremors coming.

我们现在还不敢回家，因为情况不稳定。我们仍担心会有更多地震。

13 As of this taping, at least 50 people have been killed and scores more have been injured. Makeshift hospitals have been set up to treat the wounded and emergency officials are working to access isolated villages that were cut off by landslides. Officials say more than 50,000 aid packages are en route to the island.

截至录制时，至少五十人死亡，另有数十人受伤。临时医院已搭建起来救治伤者，应急官员正在设法进入被山体滑坡隔断的偏远村庄。官员表示，五万多个援助包正在运往岛上。

14 Pop quiz hot shot.

随堂小测验，高手接招！

15 Which famous artist led the 20th century art movement known as Fauvisme?

哪位著名艺术家领导了二十世纪的“野兽派”艺术运动?

16 Henri Matisse, Pablo Picasso, Andy Warhol or Frida Kahlo?

亨利·马蒂斯、巴勃罗·毕加索、安迪·沃霍尔，还是弗里达·卡洛?

17 If you said Matisse, go on brush your shoulders off. Fauvism, French for wild beasts, is a nickname inspired by the artist's bold, untamed use of color.

如果你选马蒂斯，就拍拍肩膀，给自己一点肯定吧。“野兽派”源自法语“野兽”，这个称呼来自艺术家大胆、不受约束的色彩运用。

18 In Italy, police say they have recovered three stolen paintings by the renowned French artists Cezanne, Matisse and Renoir. Masked burglars stole the art right off of the walls of a museum near the northern city of Parma this past March. They broke in and grabbed the works all within three minutes.

意大利警方表示，他们找回了法国著名画家塞尚、马蒂斯和雷诺阿的三幅被盗画作。今年三月，蒙面窃贼在北部城市帕尔马附近一座博物馆，直接从墙上取走作品。他们闯入并盗走画作，全程只用了三分钟。

19 Local media say that the paintings were found in a cardboard box used for a flat screen TV in the basement of one of the alleged thieves' homes. Art experts say their value exceeded $10 million. The foundation celebrated the recovery, posting on Instagram that, quote, beauty has prevailed.

当地媒体称，这些画被藏在一名涉嫌盗窃者家中地下室的平板电视纸箱里。艺术专家估值超过一千万美元。基金会在Instagram发文庆祝失而复得，称“美终获胜利”。

20 Now to a dilemma that has been plaguing communities across the U.S. this year.As companies race to develop more artificial intelligence models, there's a growing need for more buildings and electricity to power them. There are more than 4,000 data centers already built or under construction in the United States alone, with another 1,500 being proposed.Our Shimon Prokopez visits communities that are fighting to keep them from being built in their own backyards.

接下来是一道今年困扰全美社区的难题。企业争相开发更多人工智能模型，对容纳和运行这些模型的建筑及电力需求也不断增长。仅美国已有或在建的数据中心就超过四千座，另有一千五百座正在提议中。西蒙·普罗库佩茨走访了一些抵制数据中心落户家门口的社区。

21 The political backlash to data centers has been fierce nationwide, aided by the rise and fear of artificial intelligence.

在人工智能兴起以及人们对它的恐惧推动下，全国范围内针对数据中心的政治反弹十分激烈。

22 We don't need it. We need water. In Utah, residents are fighting a proposed 40,000-acre data center that, when combined, is twice the size of Manhattan.

“我们不需要它，我们需要水。”在犹他州，居民正抵制一项占地四万英亩的数据中心计划，总面积相当于两个曼哈顿。

23 Maybe this decision should be made after the election.

也许这项决定应该留到选举之后再做。

24 So meetings like this in Union, Missouri, are happening all across the country and really showing the fear and concern.

像密苏里州尤宁这里的会议，正在全国各地发生，真实展现了人们的恐惧与担忧。

25 The burdens would stay local. The profits would leave town.We are asking you, please, stop this theft now.

负担会留在本地，利润却会流出城镇。我们请求你们，立即停止这种掠夺。

26 What could a data center do to a community like this? To find out, we traveled 850 miles from Union, Missouri, to a place already familiar with data centers. Loudoun County, Virginia, outside D.C., this is Data Center Alley.

数据中心会怎样影响这样的社区？为了寻找答案，我们从密苏里州尤宁行进八百五十英里，来到一个早已熟悉数据中心的地方：华盛顿附近、弗吉尼亚州劳登县，这里被称为“数据中心走廊”。

27 Just in this area alone, there are over 200 buildings that contain data centers, some 50 million square feet, enough to fit eight pentagons.

仅这一区域，就有两百多栋容纳数据中心的建筑，总面积约五千万平方英尺，足以装下八座五角大楼。

28 Having even one data center can double the amount of tax revenue. We've been able to build 30-some schools and 15 fire stations and six libraries.

哪怕只有一座数据中心，都能让税收翻倍。我们因此建起了三十多所学校、十五座消防站和六座图书馆。

29 But not everything went right.

但并不是一切都顺利。

30 It is like having constant jet airplanes flying overhead. Because you can hear it right now, right? Like, take a listen here, right? This is... That hum you hear, that's coming from this, a massive data center just feet from these homes.

就像喷气式飞机一直从头顶飞过。你现在也听得见，对吧？听一下。这种嗡嗡声，就来自这座距离住宅仅几英尺的巨大数据中心。

31 What's it like when you're trying to sleep? It's like a July 4th fireworks going on.

“睡觉时是什么感觉？” “就像七月四日一直在放烟花。”

32 Last night, my son Lucas got up in the middle of the night and said he couldn't sleep and came into our room. So it is affecting their sleep and they have to go to school.

昨晚，我儿子卢卡斯半夜起床，说睡不着，然后来到我们房间。所以这确实影响他们的睡眠，而他们还得上学。

33 There's another problem.

还有另一个问题。

34 If it was a southern wind today, all that would be blowing right over this, our houses.

如果今天刮南风，那些东西就会全都飘过来，飘到我们家上方。

35 Diesel backup generators, when they're tested, they pollute.

备用柴油发电机测试时，会排放污染物。

36 Those are the days in particular that I feel irritation in my throat.

尤其在那些日子，我会感到喉咙不舒服。

37 How do you respond to them?

你们怎么回应这些居民?

38 It's a very unfortunate situation because when it was built and approved, it was intended to be on the grid. Then in 2022, we had Dominion tell us, well, we're out of power.

情况确实很遗憾，因为建筑获批并建造时，原计划接入电网。但到2022年，道明能源告诉我们：“我们没有多余电力了。”

39 They had already built and leased the building. So the only solution for them was the gas turbines. It is a temporary situation.Eventually the power will be delivered to the site, but that doesn't help them tonight when they're trying to get to sleep.

当时建筑已经建好并出租，所以他们唯一的办法就是用燃气轮机。这只是临时情况，最终电力会接入这里，但这并不能帮助今晚想睡觉的居民。

40 You're opening a Pandora's box that can't be closed.

你们正在打开一个再也关不上的潘多拉魔盒。

41 Back in Missouri, they're fighting two proposed new data center campuses in Franklin County.

回到密苏里州，居民正反对富兰克林县两处拟建的数据中心园区。

42 Bill Hubbard's century old farm is next to one of them. Recent reports about a Georgia data center draining water from nearby farms has Hubbard worried.

比尔·哈伯德的百年农场就在其中一处旁边。最近有报道说，佐治亚一座数据中心抽走了附近农场的水，这让哈伯德十分担忧。

43 They say they're not going to drill wells.All these guarantees, you know, 737s weren't supposed to crash.

他们说不会打井。各种保证，你知道，737客机原本也不该坠毁。

44 The company behind one of the campuses says they won't tax local resources.

负责其中一个园区的公司表示，他们不会给当地资源带来负担。

45 We're developing a closed loop water system so it conserves water. We believe we could develop them in a conscious way, getting feedback from the community.

我们正开发闭环水系统，以节约用水。我们相信，可以听取社区反馈，以负责任的方式建设项目。

46 Most here are like the Hubbards. They worry because the land is their life.

这里的大多数人都像哈伯德一家。他们担忧，因为土地就是他们的生活。

47 This is home. There's no amount of money that could get me to sell this. No amount of money.

这里是家。多少钱都不能让我卖掉它，再多的钱也不行。

48 So what do you think? If AI becomes more useful, should these companies build more data centers to keep up with demand? Who should pay for the infrastructure needed to support the AI boom? What would a responsible AI data center look like? Feel free to press pause and discuss.

你怎么看？如果人工智能越来越有用，这些企业是否应建设更多数据中心来满足需求？支撑人工智能热潮所需的基础设施，应该由谁买单？负责任的人工智能数据中心应该是什么样？可以暂停节目讨论。

49 Today's story getting a 10 out of 10. Tiny legs, huge personalities, and zero respect for aerodynamics.

今天获得“十分满分”的故事：小短腿，大个性，完全不在乎空气动力学。

50 Around 130 Corgis from eight different countries took their ultimate test on the field in this year's Corgi Race Festival on Saturday. The annual event takes place in what the organizers call the, quote, European Corgi Capital in Vilnius, Lithuania. Guided by chew toys and trees, these furry low riders put those bread loaf bodies into sport mode.

周六，来自八个国家的约一百三十只柯基，在今年的柯基赛跑节上接受终极考验。这项年度活动在立陶宛维尔纽斯举行，组织者称其为“欧洲柯基之都”。在咬咬玩具和零食引导下，这些毛茸茸的“低底盘”选手，把面包般的身体切换到了运动模式。【原稿trees疑为treats。】

51 But speed wasn't the only corgi category for competition. Check out the chonk who took home gold for loudest bark. The winner, Mr. Corgington from California, registered 111 decibels, roughly the volume of a chainsaw.

但速度不是唯一比赛项目。看看这只凭最大吠叫声拿到金牌的胖乎乎选手。来自加州的冠军“柯基顿先生”叫出了111分贝，差不多和电锯一样响。

52 Proof without a shadow of a doubt that these short kings deliver more than just cuteness, but some undeniable talents as well.

这无疑证明，这些“小短腿之王”除了可爱，还有不容否认的才华。

53 It's shout out time now. The reason this is the best 10 minutes in news is because of you.

现在到了点名致意时间。这之所以是最精彩的十分钟新闻，是因为你们。

54 Best viewers on the like Mr. Huffman and Mrs. Coaster at Mattoon High School in Illinois. Braden sent us this, a handmade piece of art which might just become a really great place, a dish for me to put all my doodads, thingamajigs, gizmos, and knickknacks. This is going to be awesome.Thank you so much for thinking of us.

你们是最棒的观众，比如伊利诺伊州马顿高中的霍夫曼老师和科斯特老师。布雷登寄来这件手工作品，它或许能成为一个特别棒的小托盘，让我放各种零碎、小玩意儿和小摆件。这会很实用。非常感谢你们想着我们。

55 And our next shout out goes to Ms. Sims and all of my patriots at Burkmar High School in Lilburn, Georgia. She's also a floor manager at Fox 5 here in Atlanta, on top of coaching the Lady Patriots basketball and soccer teams.

下一组致意，送给佐治亚州利尔本伯克马高中的西姆斯老师，以及所有“爱国者”们。她除了执教“爱国者女子队”的篮球和足球，也是亚特兰大Fox 5电视台的现场调度员。

56 I see you, Coach Sims. Rise up. Make it an awesome day, everyone, and I'll see you right back here tomorrow.

西姆斯教练，我看到你了！打起精神。祝大家今天精彩，明天我们就在这里再见。
