01 What's up, sunshine? Welcome to the show. I'm Coy Wire. This is CNN 10.

阳光伙伴们，大家好，欢迎收看节目。我是科伊·怀尔，这里是CNN 10。

02 Happy Friday. If your week was anything like mine, you were feeling the heat, feeling some pressure, and you put in the time to get through. But heat, pressure, and time, the same things that test our fortitude, also make diamonds.

周五快乐！如果你这一周像我一样，那一定感受到了热度和压力，也投入时间坚持了下来。但热度、压力和时间，这些考验毅力的东西，也能造就钻石。

03 So let's rise up, shine bright, and get your 10 minutes of news.

所以，让我们振作起来，闪闪发光，来看十分钟新闻。

04 Now, we begin with potentially groundbreaking news in the fight against cancerinvolving a vaccine. An experimental mRNA vaccine has shown promising results in late-stage clinical trials aimed at preventing the return of melanoma, the deadliest form of skin cancer.

首先是一条可能在抗癌领域带来突破的疫苗消息。一种实验性信使RNA疫苗，在旨在防止最致命皮肤癌黑色素瘤复发的后期临床试验中，显示出有希望的结果。

05 Results of the ongoing study have shown that when combined with an immunotherapy drug, the vaccine prevented the cancer from returning or spreading among high-risk patients. It uses the same basic mRNA technology that became widely known through COVID-19 vaccines. mRNA, or messenger RNA, carries genetic instructions that tell our cells how to make proteins.

这项仍在进行的研究显示，疫苗与免疫治疗药物联用，能防止高风险患者的癌症复发或扩散。它采用因新冠疫苗而广为人知的同类基础信使RNA技术。mRNA，也就是信使RNA，携带遗传指令，告诉细胞如何制造蛋白质。

06 Now, vaccines, particularly mRNA vaccines, are a source of skepticism for some people, and it's important to point out this treatment is still experimental. The complete trial data have not yet been released, and regulators still have to evaluate it.

有些人对疫苗，尤其是信使RNA疫苗持怀疑态度。需要说明，这种治疗仍属实验性质，完整试验数据尚未公布，监管机构还需要评估。

07 They take the mRNA that codes for those mutations in the patient's actual tumor, and they give that back to the patient, and the patient makes antibodies to their own tumors. This is a customized, personalized vaccine to treat your own tumor.

他们提取患者实际肿瘤中针对突变编码的信使RNA，再给回患者，使患者产生针对自身肿瘤的抗体。这是一种定制的个体化疫苗，用来治疗患者自己的肿瘤。

08 So, promising? Absolutely. Proven cure? No.

所以，有前景吗？当然。已经证实能治愈吗？还没有。

09 But potentially an entirely new chapter in how doctors fight cancer. More than 1.5 million Americans were living with melanoma in 2023, according to the National Cancer Institute. Pharmaceutical companies Moderna and Merck, who are co-developing the treatment, say they plan to file for approval from regulators within months.

但它可能开启医生抗癌的全新篇章。美国国家癌症研究所数据显示，2023年美国有超过一百五十万人患有黑色素瘤。联合开发这一疗法的莫德纳和默克表示，计划数月内向监管机构申请批准。

10 This weekend, Washington, D.C. becomes Washington of horsepower.The nation's capital is set to transform into a bona fide racetrack, hosting its first ever IndyCar race, the Freedom 250 Grand Prix. The 125-lap race carries a roughly $35 million price tag, all paid for by IndyCar, making it among the most expensive races on their calendar.

这个周末，华盛顿特区要变成“马力之都”。美国首都将化身真正的赛道，首次举办印地赛车赛事“自由250大奖赛”。比赛共125圈，成本约三千五百万美元，全部由印地赛车方面支付，是赛历中最昂贵的赛事之一。

11 Extensive construction was needed to allow open-wheel IndyCars to race safely at speeds of up to 180 miles per hour, including walls to protect both racers and spectators in viewing areas along the track.

为了让开放式车轮的印地赛车以最高每小时一百八十英里的速度安全比赛，需要大量施工，包括在赛道沿线观赛区域设置防护墙，保护车手和观众。

12 The roughly one-and-a-half-mile circuit is centered around the National Mall, and flanked by some of the capital's biggest landmarks. It even features a Pennsylvania Avenue pit lane just blocks from the Capitol Building.

这条约一点五英里长的赛道，以国家广场周边为中心，两侧是首都的重要地标。它甚至在距国会大厦仅几个街区的宾夕法尼亚大道设置维修区通道。

13 The one-of-a-kind race rounds out a summer of celebrations that included a mixed martial arts fight on the White House lawn, a fair on the National Mall, and what was billed as the biggest fireworks display in history.

这场独特赛事为夏季庆祝活动收尾。此前的活动包括白宫草坪上的综合格斗赛、国家广场上的集市，以及被宣传为史上最大规模的烟花秀。

14 Pop quiz, hot shot.Which of these is an actual feature of the rhesus macaque, the monkey commonly found around Delhi, India?

随堂小测验，高手接招！印度德里周边常见的恒河猴，真正具备下列哪种特征？

15 A second stomach, cheek pouches, retractable claws, or a prehensile tail?

第二个胃、颊囊、可伸缩的爪，还是可抓握的尾巴？

16 Answer is cheek pouches. It's like their own snack pack. Rhesus macaques can stuff food into expandable pouches inside their cheeks and save it for later. The pouches can expand roughly the size of their stomach, basically a lunchbox built into their face.

答案是颊囊，就像随身零食包。恒河猴能把食物塞进脸颊内可扩张的囊袋，留着以后吃。囊袋大致能扩张到胃的大小，简直是长在脸上的午餐盒。

17 In the streets of Delhi, India, organizers of the Badminton World Championships have hired people with one of the strangest job descriptions we've ever heard of. Professional monkey whisperer, our Ivan Watson, has more on how they're trying to keep monkeys away from one of badminton's biggest stages.

在印度德里，羽毛球世锦赛组织者雇了一些人，他们的职位描述是我们听过最奇特的之一：职业“猴语者”。伊万·沃森介绍，他们如何把猴子挡在羽毛球最重要的舞台之一之外。

18 How do you keep the monkeys that roam New Delhi's streets out of an international sports event? One solution might involve a monkey whisperer.

如何阻止在新德里街头游荡的猴子闯入国际体育赛事？一种办法可能是请来“猴语者”。

19 Here's a monkey whisperer shared by Radio India at Delhi's Indira Gandhi Stadium, where Badminton's World Championships are currently being held. He's imitating the call of a langur monkey to scare away smaller rhesus macaque monkeys.

这是印度广播电台分享的画面，地点是德里英迪拉·甘地体育馆，羽毛球世锦赛正在这里举行。一位“猴语者”模仿叶猴叫声，吓走体型较小的恒河猴。

20 For years, authorities here have been trying to come up with ways to keep Delhi's monkeys from infiltrating major events without hurting the animals.

多年来，当地有关部门一直在寻找方法，既阻止德里的猴子混进重大活动，又不伤害它们。

21 They put up life-sized cutouts of langurs when Delhi hosted the G20 summit in 2023. And during the Commonwealth Games in 2010, officials actually employed live langurs to scare away monkeys. But that's illegal now.

2023年德里举办二十国集团峰会时，他们摆放了真人大小的叶猴剪影。2010年英联邦运动会期间，官员甚至雇用了活叶猴来吓走其他猴子，但现在这样做已属违法。

22 A monkey was spotted at Indira Gandhi Stadium at a different badminton event earlier this year. When asked what to do if it happens again this week, the head of India's main badminton association joked, maybe he'll just give the monkey a banana.

今年早些时候，英迪拉·甘地体育馆另一场羽毛球活动上，就出现过猴子。当被问及本周再发生该怎么办时，印度主要羽毛球协会负责人开玩笑说，也许给它一根香蕉就行。

23 Now to Panama, where conservationists just found something that hasn't been documented in this community in nearly three decades.

接下来看巴拿马。环保人士刚发现一样东西，近三十年来，这个社区都没有相关记录。

24 Tracks in the sand leading to a nest belonging to the biggest sea turtle on the planet. Community conservationists say they've located a leatherback sea turtle nest near Jaqué on Panama's Pacific coast for the first time in nearly 30 years. Officials say at least one leatherback turtle came ashore after conservationists discovered its tracks in the sand.

沙地上的足迹通向一个巢，属于世界上最大的海龟。社区保护人员称，他们在巴拿马太平洋沿岸哈克附近，近三十年来首次找到棱皮龟巢。官员表示，保护人员发现沙地足迹后，确认至少一只棱皮龟曾上岸。

25 From 1998 to 2026, we have significantly increased the sea turtle population here. Previously, only one species, the loggerhead, was found here. But now, of the five species found in Panama, four have already arrived in the region.

从1998年至2026年，这里的海龟数量明显增加。过去只发现蠵龟一种，如今巴拿马五种海龟中，已有四种来到本地区。

26 The turtle's return marks major progress for the town, where conservationists have spent close to two decades dedicating their time to protecting the animals.

海龟回归，标志着小镇保护工作取得重大进展。近二十年来，当地保护人员一直投入时间守护这些动物。

27 Imagine studying for one of the biggest tests of your life,passing, and then being told, yeah, we're going to need you to take that again. That's the reality for tens of thousands of college applicants at the National Autonomous University of Mexico, Mexico's largest university and one of Latin America's most prestigious.

想象你为人生最重要的考试之一苦读，通过之后却被告知：“还得再考一遍。”墨西哥国立自治大学的数万名申请者，就面临这样的现实。这是墨西哥最大的大学，也是拉丁美洲最负盛名的大学之一。

28 It annulled the results of around 3,000 tests after the results showed an unusually high number of perfect scores, suggesting some students may have cheated using AI. 58,000 applicants were called to take a new test, even if they were not accused of cheating, this time in person and under strict supervision. CNN's Valeria Leon reports.

考试出现异常多的满分，显示部分学生可能用人工智能作弊，学校因此取消约三千份考试结果。五万八千名申请者被要求重考，即使未被指控作弊也一样。这次必须现场参加，并接受严格监督。CNN记者瓦莱里娅·莱昂报道。

29 After an alleged AI fraud using in the admission exam, thousands of students are now lined up to get to this admissions test for the second time to get into the National Autonomous University in Mexico, one of the oldest and most prestigious universities of Latin America.

入学考试出现涉嫌人工智能作弊后，数千名学生再次排队参加考试，争取进入墨西哥国立自治大学。这是拉丁美洲最古老、最有声望的大学之一。

30 This is the first time that the UNAM applied this test online and after this fraud allegedly signaling students using AI for this first test, the university decided to reapply this test.

这是该校首次在线举办这项考试。由于首次考试涉嫌使用人工智能作弊，大学决定重新组织考试。

31 And this is what the students feel of retaking the exam.

以下是学生们重考的情况和感受。

32 Around 50,000 students have presented this test, the second one for the admission to the National Autonomous University, the UNAM. And here in Mexico City, this is the place, Palacio de los Deportes, where thousands of students and also their families, as you can see here, they are waiting for hours until their students can present the test and finally go out. This is the last date for the students to get inside and get this test done and finally get a place in one of the most important universities in Mexico.

大约五万名学生参加了墨西哥国立自治大学的第二次入学考试。在墨西哥城的体育宫，可以看到数千名学生和家属等待数小时，直到学生参加并完成考试。这是考生进入考场、完成测试的最后一天，希望最终拿到墨西哥最重要大学之一的学位名额。

33 Today's story, getting a 10 out of 10, a mama bear who would do anything for her son, including getting some serious ink. 11 year old Hunter Fletcher has nonverbal autism and communicates using augmentative and alternative communication or AAC, a virtual tablet with words and symbols. But when the device's battery died, mom had to try something new.

今天获得“十分满分”的故事，是一位愿为儿子做任何事的“熊妈妈”，包括纹上相当醒目的图案。11岁的亨特·弗莱彻患有非口语自闭症，使用辅助与替代沟通系统，也就是AAC，通过带文字和符号的平板交流。但设备电池耗尽时，妈妈必须另想办法。

34 I got a piece of paper and I wrote the alphabet and he kind of got a little frustrated. He flipped it over and started writing the keyboard and he fake typed on the keyboard to tell me what he wanted to eat.

我拿了一张纸，写下字母表，他有点沮丧。他把纸翻过来，开始画键盘，再假装在上面打字，告诉我想吃什么。

35 Inspired by that one afternoon at a restaurant, Fletcher decided to permanently tattoo a keyboard on her arm.

受餐馆里那个下午启发，弗莱彻决定在手臂上永久纹一个键盘。

36 That sparked the idea for me that I can't limit him to technology because technology does fail us.

这让我想到，不能让他只能依靠技术，因为技术也会出故障。

37 One viral social media video later, the Fletcher family has now partnered with a clothing company to sell shirts with keyboards on their sleeve. A mom giving a whole new meaning to wearing your heart on your sleeve.

一段社交媒体视频走红后，弗莱彻一家已与服装公司合作，销售袖子上印有键盘的上衣。这位妈妈让“把心意写在袖子上”有了全新含义。

38 Let's end with some Friday fun. We have a shout out going to Mr. Taylor at Lorain Preparatory High School in O-H-I-O. Thank you for commenting and subscribing on our CNN 10 YouTube channel.

最后来点周五欢乐。向俄亥俄州洛雷恩预备高中的泰勒老师致意。感谢你在CNN 10的YouTube频道留言并订阅。

39 And this shout out goes to Liz Angley at Graded, the American school of Sao Paulo, Brazil. Thank you so much for sending us this very sweet flag and this little dude. Bom dia, brother.

这一组致意送给巴西圣保罗格雷德美国学校的莉兹·安格利。非常感谢你们寄来这面漂亮旗子和这个小家伙。兄弟，早上好！

40 Play that Friday music, Nadir. Go out, have an awesome weekend. Go out, make someone smile.

纳迪尔，放起周五音乐吧。走出去，过个精彩周末，让某个人露出笑容。

41 You never know how or when or who, but you may be the spark of joy someone needs. I'm Coy Wire. This is CNN 10.

你不知道会以什么方式、在什么时候、给谁带来快乐，但你可能就是某人需要的那束光。我是科伊·怀尔，这里是CNN 10。

42 It's been a blessing to spend this week with you.

能与你们共度这一周，是一种福气。
