01 What's up, sunshine? I'm Coy Wire. This is CNN 10. Today we have a Louisiana launch pad reaching for the stars, AI trying to top the charts, and a baby shark who's all grown up.

阳光伙伴们，大家好！我是科伊·怀尔，这里是CNN 10。今天，路易斯安那的发射基地向星空进发，人工智能试图登顶排行榜，还有已经长大的“鲨鱼宝宝”。

02 Ten minutes, big world. Let's dive in. We start with two quotes, full of wisdom.

十分钟，大世界。开始吧，先送上两句充满智慧的话。

03 Find out who you are and do it on purpose. And if you see someone without a smile, give them yours. Words to live by from iconic singer, songwriter, and philanthropist Dolly Parton, who died this week at the age of 80.

“找到真正的自己，并有意识地活成自己。” “如果看到有人没有笑容，就把你的笑容送给他。”这些值得奉为生活准则的话，来自标志性歌手、词曲作者和慈善家多莉·帕顿。原稿称，她本周去世，享年八十岁。

04 Known around the world as the queen of country music, or simply Dolly, the one-of-a-kind star rose from humble beginnings in rural Tennessee to become one of the biggest names in music history.

她以“乡村音乐女王”或简单的“多莉”闻名世界。这位独一无二的明星，从田纳西农村的贫寒家庭起步，成长为音乐史上最耀眼的名字之一。

05 But for all the records she sold and awards she won, Dolly's greatest hit may have been the lives she touched. She leaves a remarkable legacy of philanthropy, proof that sometimes the biggest stars shine brightest on other people. Our Mina Doerson has more, and a look back at Dolly's incredible career and enduring impact.

尽管卖出无数唱片、赢得众多奖项，多莉最大的“畅销作品”或许是她改变过的生命。她留下非凡的慈善遗产，证明最大的明星有时把最亮的光照向别人。米娜·多尔森回顾她精彩的职业生涯和持久影响。

06 Well, I wanted to be a star, but I always thought of a star more of as a singing star.

我想当明星，但一直更多地把自己想象成歌唱明星。

07 Legendary country music star, businesswoman, actor, and philanthropist Dolly Parton has died. Parton was born one of 12 kids in a one-bedroom cabin in East Tennessee.

传奇乡村歌星、商人、演员和慈善家多莉·帕顿去世。她出生在田纳西东部的一间单卧室小木屋，是十二个孩子之一。

08 I was never ashamed of my background, even though we grew up very poor.

虽然家里非常穷，我从不为自己的出身感到羞耻。

09 Those humble beginnings would shape her life in music.

这些贫寒的起点，塑造了她的音乐人生。

10 I think we've become who we are when we're young.

我想，我们在年幼时就开始成为后来的自己。

11 By 21, Parton broke into the country billboard charts for the first time with her single, Dumb Blonde.

二十一岁时，帕顿凭单曲《Dumb Blonde》首次进入公告牌乡村音乐榜。

12 It was one of the first milestones in a career that spanned seven decades. She released over 50 albums, winning 10 Grammys, and garnering 55 Grammy nominations, the most ever for a female country artist.

这是她横跨七个十年的生涯中最早的里程碑之一。她发行五十多张专辑，赢得十座格莱美奖，获得55次提名，是乡村音乐女艺人之最。

13 She received an honorary Oscar in 2025 for her humanitarian work.

2025年，她因人道主义工作获得奥斯卡荣誉奖。

14 It makes me want to dream up new ways to help lift people up, and isn't that what we're supposed to be here for?

这让我想继续构思新的办法，帮助人们振作起来。我们来到世上，不正是该做这些吗？

15 Opening Dollywood, a theme park near her hometown in East Tennessee that employs thousands and has invigorated the surrounding area.

她在田纳西东部家乡附近开设“多莉坞”主题公园，雇用数千人，带动周边地区发展。

16 Hundreds and hundreds of businesses have sprung up and thousands and thousands of jobs. I just really think business. I get that from my dad.

数百家企业应运而生，创造数千个工作岗位。我确实很有商业头脑，这一点来自父亲。

17 Parton supported many charitable causes, including childhood literacy through her imagination library.

帕顿支持许多慈善事业，包括通过“想象图书馆”促进儿童阅读。

18 We've officially gifted over 200 million books to children.

我们正式赠送给儿童的书籍，已经超过两亿册。

19 Dolly Parton leaves behind more than iconic music. She leaves a legacy of generosity, humility, and a reminder to be kind to one another.

多莉·帕顿留下的不只是经典音乐，还有慷慨、谦逊，以及善待彼此的提醒。

20 I think everybody should be treated with respect. I hope that everybody gets a chance to be who and what they are.

我认为每个人都应该受到尊重，希望每个人都有机会做真实的自己。

21 Elon Musk's SpaceX says it's planning to build what could become the biggest rocket launch site on Earth in Louisiana.

埃隆·马斯克的SpaceX表示，计划在路易斯安那建设可能成为世界最大的火箭发射基地。

22 SpaceX unveiled plans for a massive $100 billion spaceport near Louisiana's Gulf Coast. Construction is expected to begin next year, with the first launch targeted for 2029. They are calling it Starbase Louisiana, a play off SpaceX's existing starbase in South Texas, where the company develops and tests its massive Starship rocket.

SpaceX公布计划，在路易斯安那墨西哥湾沿岸附近建设耗资一千亿美元的巨大航天港。预计明年开工，目标2029年首飞，命名为“路易斯安那星际基地”，呼应其位于得克萨斯南部、研发和测试巨型星舰火箭的现有星际基地。

23 And get this, Musk says the Louisiana site could eventually have more than a dozen launch towers capable of supporting more than 30 flights each day. That's more like an airport departure schedule. But before anyone starts packing for Mars, this thing still has to get off the ground here on Earth.

更惊人的是，马斯克称路易斯安那基地最终可能拥有十多座发射塔，每天支持三十多次飞行，简直像机场出发时刻表。但在任何人打包去火星前，这个项目首先还得在地球上落地。

24 The enormous project faces regulatory and environmental reviews particularly significant because it would be built along Louisiana's ecologically sensitive Gulf Coast.

项目规模巨大，面临监管和环境审查。尤其因为拟建地位于生态敏感的路易斯安那墨西哥湾沿岸，这些审查格外重要。

25 Pop quiz hot shot. Which country has produced the most number one hits on America's Billboard Hot 100 by artists born outside the U.S.? Australia, Canada, United Kingdom, or Sweden?

随堂小测验，高手接招！在美国境外出生的艺人中，哪个国家的艺人在美国公告牌百强单曲榜拥有最多冠军歌曲？澳大利亚、加拿大、英国，还是瑞典？

26 If you said the United Kingdom, ding ding! Correct.

如果你选英国，叮叮，答对了！

27 The Brits have been topping the charts for decades. Down under, there is a new debate about who or what deserves a spot on the charts. In Australia, artificial intelligence is shaking up the music charts and stirring up some very human controversy.

英国艺人已称霸榜单数十年。而在澳大利亚，关于谁、或什么东西配登榜，出现新争论。人工智能正在搅动音乐榜单，也激起非常“人类”的争议。

28 The Australian Recording Industry Association, known as ARIA, announced this week that music generated entirely by AI will no longer be eligible for its official charts, ranking the country's biggest songs. The decision follows controversy surrounding an Australian DJ's AI-assisted cover of Madonna's Like a Prayer, which became a chart hit. Apparently AI was living on a prayer, ARIA said, not on our chart.

澳大利亚唱片业协会ARIA本周宣布，完全由人工智能生成的音乐，将不再有资格进入官方歌曲榜单。此前，一名澳大利亚DJ借助人工智能翻唱麦当娜《Like a Prayer》并上榜，引起争议。看来人工智能只能“靠祈祷过活”，ARIA则说：“别上我们的榜。”

29 The organization says the goal is to protect the human nature of artistry. Important distinction, AI isn't completely banned. Recordings that use generative AI in a supporting role will still be eligible.

协会称，目的是保护艺术创作的人性。这里有个重要区别：人工智能并非全面禁用。让生成式人工智能承担辅助角色的录音作品，仍可参与。

30 We're just not really interested in celebrating the success of AI-generated music, and particularly when it takes the spot of an Australian artist in our charts.

我们实在不想庆祝人工智能生成音乐的成功，尤其当它挤掉榜单上澳大利亚艺人的位置时。

31 The move comes amid a broader fight over music rights in the age of AI, with organizations like the Recording Industry Association of America and the Grammys pushing for stricter scrutiny over AI-produced tracks.

这一决定出现在人工智能时代更广泛的音乐权利争议中。美国唱片业协会和格莱美等组织，都在推动更严格审查人工智能制作的歌曲。

32 So what do you think? Should entirely AI-generated music be allowed to compete against songs created and performed by humans? How would you balance technological advancements while staying true to an artist's vision? Feel free to press pause and ruminate solo or discuss with friends. Preferably human ones.

你怎么看？完全由人工智能生成的音乐，是否应该与人类创作、演唱的歌曲竞争？如何既接纳技术进步，又忠于艺术家的创作愿景？可以暂停，独自思考，或与朋友讨论，最好是人类朋友。

33 Now to a promising new development in the world of medicine. The U.S. Food and Drug Administration, or FDA, has cleared a new blood test to help identify signs of Alzheimer's disease in people aged 55 and older with cognitive decline.

接下来是医学领域一项有前景的新进展。美国食品药品监督管理局FDA，已准许一项新的血液检测，用于帮助识别55岁以上、出现认知下降人群的阿尔茨海默病迹象。

34 It allows doctors to use biomarkers to help identify patients who are likely or unlikely to have Alzheimer's-related brain changes. Alzheimer's is a fatal progressive brain disorder where protein fragments called amyloid plaques build up in the brain, causing cell death and brain damage. The disease affects more than 7 million Americans and is one of the leading causes of death in those over 65.

医生可以利用生物标志物，帮助判断患者是否可能出现与阿尔茨海默病有关的大脑变化。这是一种致命的进行性脑部疾病，称为淀粉样斑块的蛋白片段在脑内堆积，造成细胞死亡和脑损伤。美国有七百多万人受影响，它也是65岁以上人群的主要死因之一。

35 The test, which was developed by pharmaceutical companies Roche and Eli Lilly, received approval in Europe earlier this year. While no price has been announced, Roche says it can be run on more than 4,500 existing labs across the country.

这项检测由罗氏和礼来开发，今年早些时候已获欧洲批准。虽然价格尚未公布，罗氏称全国现有四千五百多家实验室都能开展。

36 Biomarker blood tests offer a possible alternative to traditionally expensive and invasive procedures used to identify the disease, including brain scans and spinal taps.

生物标志物血液检测，可能替代传统上昂贵且有侵入性的确诊程序，包括脑部扫描和腰椎穿刺。

37 If you think this summer's been hot, imagine wearing a fur coat all day.In Tokyo, where extreme summer temperatures have been downright rough, a fan-powered suit is helping dogs beat the heat. Our Scout Richards has more on one seriously fetching invention.

如果你觉得今年夏天热，想象一下整天穿着毛皮大衣。东京极端高温让日子十分难熬，一种风扇服正帮助狗狗降温。斯考特·理查兹带来一项相当讨喜的发明。

38 These are some hot dogs, and this invention is supposed to cool them down. Yes, those are tiny battery-powered fans strapped to a dog. The puffy pet jackets were created by Tokyo-based maternity wear company Sweet Mommy as Japan swelters through extreme summer heat.

这些狗狗热坏了，这项发明就是为了给它们降温。没错，那些绑在狗身上的是电池驱动的小风扇。日本饱受夏日酷热时，东京孕妇装公司Sweet Mommy设计了这种蓬松宠物外套。

39 I have never lived in a hotter country than here. It is very dangerous even for us humans and for dogs who cannot sweat like us. It's even worse.

我从没住过比这里更热的国家。这对人类都很危险，对不能像我们这样排汗的狗来说，就更糟。

40 So how does this thing actually work? Two battery-powered fans pull air into the jacket, while an ice pack in the collar helps cool the air before it circulates around the animal's body. And apparently there's a market for canine cooling. Sweet Mommy says it has sold nearly 10,000 of the pet suits since launching the first version in 2022. The latest model costs about $104.

它究竟怎么工作？两个电池风扇把空气吸进外套，领口冰袋先给空气降温，再让它绕动物身体循环。看来狗狗降温确有市场。Sweet Mommy称，自2022年首款上市以来，已卖出近一万件。最新型号约104美元。

41 Yeah, I'm very excited that there is at least one brand here that thinks about the well-being of our fur babies in such conditions.

我很高兴，至少这里有一个品牌，在这样的天气下想着毛孩子们的福祉。

42 Today's story, getting a 10 out of 10, Baby Shark gets a glow up.

今天获得“十分满分”的故事：“鲨鱼宝宝”华丽长大。

43 The seven-year-old boy featured in the most viewed video in YouTube history is now a K-pop star, has been playing in the White House, launched countless trends, and racked up more than 17 billion views on YouTube. It's Baby Shark Dance, and one of the video's stars is now starting a music career of his own. Park Geon-roung, known as Baby Shark Boy, released his debut single, Wave, which begins with a melody that might sound a little familiar.

YouTube史上观看量最高视频里当时七岁的男孩，如今成为韩国流行歌手。那首曾在白宫播放、掀起无数潮流、在YouTube积累一百七十多亿次观看的，正是《Baby Shark Dance》。其中一位小明星现已开启个人音乐事业，被称为“鲨鱼宝宝男孩”的朴建荣，推出首支单曲《Wave》，开头旋律可能让你觉得很熟悉。【原稿首句主语衔接不清，按上下文整理。】

44 Baby Shark Boy says the song represents a new beginning for him as an artist. Here is hoping his career has some serious bite. All right, that's about all we have for our show today.

“鲨鱼宝宝男孩”说，这首歌代表他作为艺人的新起点。希望他的事业能展现强劲“咬合力”。好了，今天节目差不多到这里。

45 But before we go, you know what time it is. It is shout-out time. This one goes to Mr. Marshall at Shippensburg High School in my home state of Pennsylvania.

结束之前，你知道是什么时间：点名致意。这次送给我家乡宾夕法尼亚州希彭斯堡高中的马歇尔老师。

46 Thank you for subscribing and commenting on our CNN10 YouTube channel and leaving such a kind comment. I miss all my wrestling and football days up there at Shippensburg.

感谢你订阅CNN 10的YouTube频道，并留下那么温暖的评论。我很怀念过去在希彭斯堡摔跤、打橄榄球的日子。

47 And this next shout-out goes to Ms. Pomikpik at Yamato Colony School in Livingston, California.

下一组致意送给加州利文斯顿大和殖民地学校的波米克皮克老师。

48 They made this custom puzzle of their class watching the show, and I was a bit puzzled at first as to why there was a piece missing. And I'm thinking, first of all, that is very sweet. Second of all, if that's supposed to be me, you found me.

他们定制了这幅全班收看节目的拼图。起初，我有点困惑，为什么少了一块。我想，首先，这真的很贴心；其次，如果那块代表我，那你们找到我了。

49 Shine on, sunshine. That's our 10 for the day. Be curious, be kind, and remember, you don't have to change the world today.

继续发光吧，阳光伙伴们。今天的十分钟到此结束。保持好奇、善良，记住，你不必今天就改变整个世界。

50 Just make your corner shine a little brighter. I'm Coy Wire, and we are CNN10.

只要让自己所在的一角更亮一点。我是科伊·怀尔，这里是CNN 10。
