CNN 10

2026.09.02 / 中英对照学习稿

Happy World Coconut Day
世界椰子日快乐

根据用户提供的 english.txt 整理并翻译。英文段落下方为对应中文，原稿词汇注释收于文末。段落编号用于对照，原稿未提供时间码。

文字说明：保留英文原稿；译文按所给文本和上下文处理，未与视频核验。无法确定的听写或残句在译文中注明。

正文 / 英文与中文逐段对照

01 What's up, sunshine? I'm Coy Wire. This is CNN 10. Happy World Coconut Day.

阳光伙伴们，大家好！我是科伊·怀尔，这里是CNN 10。世界椰子日快乐。

02 The coconut might be nature's Swiss army knife. Drink the water, eat the flesh, make milk, oil. Even the husk can be turned into rope, brushes, and other products.

椰子也许是大自然的瑞士军刀。椰汁能喝、椰肉能吃，还能制成椰奶和椰油，连外壳纤维也能做绳索、刷子和其他产品。

03 Talk about a fruit that's really cocoa nuts. Ten minutes. Big world. Let's crack into the news.

这水果真是“椰”得不得了。十分钟，大世界，让我们敲开新闻。

04 We start with the end of an era. Lionel Messi, one of the greatest players to ever touch a soccer ball, is retiring from Argentina's national team after more than two decades wearing his country's colors.

先看一个时代的落幕。足球史上最伟大的球员之一利昂内尔·梅西，在身披国家队战袍二十多年后，将退出阿根廷国家队。

05 The decision follows back-to-back heartbreaks for the soccer superstar. His father, Jorge, passed away shortly after Argentina's loss to Spain in this year's World Cup final. It's a bittersweet moment for fans in Argentina who've watched the homegrown hero rise to the pinnacle of the sport over the years.

这一决定出现在接连两次心碎之后。阿根廷今年世界杯决赛负于西班牙不久，梅西的父亲豪尔赫去世。对多年见证这位本土英雄登顶足坛的阿根廷球迷来说，这是悲喜交加的时刻。

06 There's no comparison. At every level, at a football level, at a personal level, and in the national team, he gave everything. He played the last World Cup 39 years old as if he were a young kid.

无人可比。无论足球、个人还是国家队层面，他都付出了一切。上届世界杯他39岁，却像年轻小伙一样踢球。

07 He prepared himself as if he were a young kid, knowing what was happening to his father, too. He played it anyway for him. Absolute admiration. He left a lot for Argentina. He went through many periods of ups and downs.

他像年轻人一样备战，同时知道父亲的情况，却仍为父亲坚持比赛。令人无比敬佩。他为阿根廷留下很多，经历了许多起起伏伏。

08 Messi was for me the greatest as a player and as a person, and his retirement makes me sad. But on the other hand, it doesn't displease me because you have to retire at the top, as others did. We're going to miss him because we all love him.

在我心中，梅西作为球员和作为人，都是最伟大的。他退役让我难过，但另一方面也并非坏事，因为应该像其他人一样，在巅峰时退下。我们都会想念他，因为我们都爱他。

09 In a statement posted online, Messi thanked Argentine fans for the love they've shown and said he'll miss hearing them cheer from the pitch.

梅西在网上声明中感谢阿根廷球迷的爱，说自己会怀念在球场上听到他们欢呼。

10 But if you're already missing Messi, don't fret. The 39-year-old Messi will still be playing for defending MLS champions Inter Miami.

如果你已经开始想念梅西，别担心。39岁的他仍将为美国职业足球大联盟卫冕冠军迈阿密国际效力。

11 Pop quiz hot shot.

随堂小测验，高手接招！

12 How many traditional colours make up the visible light spectrum?

传统上，可见光光谱由几种颜色组成？

13 Two, five, seven or ten?

两种、五种、七种，还是十种？

14 If you said seven, go ahead and celebrate. The human eye perceives different wavelengths on the visible spectrum as the colours red, orange, yellow, green, blue, indigo and violet. Remember the acronym ROYGBIV.

如果你选七种，就庆祝一下吧。人眼把可见光不同波长感知为红、橙、黄、绿、蓝、靛、紫。记住英文首字母缩写ROYGBIV。

15 What if we could not only see light, but also hear it? Turns out it's not as far-fetched as it seems, and one innovative creator is taking the seriously bright idea to the next level by making music. Our John Sarlin got a front row seat to hear the unique instrument in action and learn all about the science that makes it work.

如果光不只能看，还能听呢？事实证明，这并不像听起来那么离奇。一位创新者把这个闪亮想法更进一步，用来创作音乐。约翰·萨林近距离听了这件独特乐器，并了解其背后的科学。

16 Can you guess what triggers this instrument to play music and stops it?

你能猜到什么会触发这件乐器演奏，什么又会让它停下吗？

17 So I made my own instrument that is controlled by light, as you can see here.

我做了一件自己的乐器，由光控制，就像你现在看到的。

18 You heard that right. This creator has gone viral for using tech and nature to create music.

你没听错，这位创作者因利用科技和自然制作音乐而走红。

19 My name's Riley. I am a composer. I just call it my light instrument.

我叫莱利，是作曲家。我就把它叫作“光乐器”。

20 So how does it work?

那么，它怎么工作?

21 These cables basically sense light and how bright it is. That goes into my breadboard that I hand-soldered myself, which then goes into my Arduino, which is right here. That goes into my computer, and I have Arduino code that turns all the stuff that's going into this cable, and it turns it into a bunch of numbers. And then I take all those numbers and I turn it into music.

这些线缆基本上能感知光和亮度，信息进入我手工焊接的电路板，再进入这里的Arduino，然后传到电脑。Arduino代码把线缆接收的信息变成一组组数字，我再把这些数字变成音乐。

22 In other words? Light go into cable. Cable goes into box. Box turns it into electronics. Electronics turns it into sound.

换句话说：光进入线缆，线缆连接盒子，盒子变成电子信号，电子信号再变成声音。

23 Riley says the idea came about after taking an analog synthesizer building class using similar types of cables.

莱利说，这个想法来自一堂模拟合成器制作课，当时使用了相似的线缆。

24 It sounded awful. It was like, I need to build something kind of like this. That sounds better. I went home, coded, started soldering and building this. And then after four months, I had the instrument.

那个声音很难听。我想，得做个类似但更好听的东西。回家后，我开始写代码、焊接、搭建，四个月后，就有了这件乐器。

25 Since then, Riley says she has performed before mostly academic audiences, as well as posting videos of herself performing with her invention to her social media accounts.

此后，莱利主要面对学术圈观众演出，也在自己的社交账号发布使用发明演奏的视频。

26 I think it's best live because once it is live, you can actually feel the interaction. You can feel the connection. I like to let the music speak for itself.

我觉得现场最好，因为能真切感受互动和连接。我喜欢让音乐自己说话。

27 Right now, the instrument is limited to the original box and Riley's computer. She says commentators have asked her how to have one to buy, asking donations to help her ongoing artistic project.

目前，乐器仍局限于原始盒子和莱利的电脑。她说，评论者询问如何购买，她也在征求捐助，支持持续的艺术项目。

28 I'd love to find a way to make more light instruments because people really want to buy it. People really want to have one of their own. So I'd have to figure out how to make it look nice and how to make it not on a computer. So that's probably like a couple years, maybe some more science and thinking.

我很想找到制作更多光乐器的方法，因为人们真的想买，想拥有一台。所以我得研究如何让它外观漂亮，如何脱离电脑运行。这可能需要几年，还要更多科学探索与思考。

29 Now to Chile, where some of Mother Nature's most dapper dressers are trading their tuxes for something high tech.

接下来看智利。大自然中一些穿着最体面的成员，正把燕尾服换成高科技服装。

30 My besties, researchers have developed special suits to help injured penguins recover from surgery. Penguins often arrive at rehabilitation centers after getting tangled in fishing nets, suffering wounds that can require stitches. But here's the problem.

我的好朋友们，研究人员开发了特殊衣服，帮助受伤企鹅术后康复。企鹅常因被渔网缠住，带着需要缝针的伤口送到救助中心。但问题来了。

31 Penguins are incredibly flexible, and they can reach around and pick at those stitches. So with prudence, researchers at Chile's Humboldt Conservation Center helped develop a special fabric infused with microscopic particles of copper and zinc, which aid recovery times by preventing bacterial growth and promoting the formation of new blood vessels.

企鹅身体极灵活，能转头够到并啄弄缝线。所以智利洪堡保护中心的研究人员审慎开发了一种特殊织物，加入微小的铜和锌颗粒，通过抑制细菌生长、促进新血管形成，帮助缩短恢复时间。

32 This is a differentiator of this technology versus others, which allows tissues to recover faster.

这正是该技术与其他技术的区别，能让组织更快恢复。

33 We're working under the hypothesis that this technology could also help penguin recovery. We have tested it in dogs, cats, mammals, but in penguins for the first time.

我们正在检验一个假设：这项技术也可能帮助企鹅康复。此前已在狗、猫及其他哺乳动物上测试，但用于企鹅还是第一次。

34 And there's a uniquely Chilean twist here. Chile is home to roughly 80 percent of the world's remaining Humboldt penguin population and is the world's largest producer of copper. So one of the country's most famous natural resources is now helping protect some of its most famous wildlife. That's some heavy metal healing right there. Rock on.

这里还有独特的智利元素。世界现存洪堡企鹅约百分之八十生活在智利，而智利又是全球最大的铜生产国。所以，该国最著名的自然资源之一，正帮助保护最著名的野生动物之一。这真是重金属疗愈，继续摇滚吧。

35 Have you ever found yourself crying, like while you're chopping an onion?Imagine doing that in space where tears can float. NASA astronaut Anil Menon shared a look into what cooking might look like hundreds of miles above Earth.

你有没有切洋葱时掉眼泪？想象在眼泪会飘起来的太空做这件事。美国航天局宇航员阿尼尔·梅农，分享了距离地球数百英里高空的烹饪场景。

36 You might even call it one giant leap for a meal prep.

你甚至可以说，这是备餐的一大步。

37 Tell us what's going on here.

介绍一下这里在做什么。

38 We got some onions in a resupply vehicle. We get very excited when we have fruits and vegetables up here. So one of the things that we really like to do is roast these onions. We do it with garlic as well when we get it.

补给飞船带来了一些洋葱。在这里拿到水果蔬菜，我们都会特别兴奋。我们很喜欢烤洋葱，有大蒜时也这样做。

39 We have some aluminum foil right here and it's very simple. We've got our olive oil. Place the cut onions into the tin foil.

这里有铝箔，做法很简单。拿出橄榄油，把切好的洋葱放到锡箔里。

40 Blasted onion. I like to do a layer of this oil first to help them stick while you're cutting the rest. Get them down there and package it up and then we'll put it over here in our food warmer for probably like 12, 24 hours because it's not a real oven, just a food warmer. But over time that will make a nice roasted onion. They'll even get caramelized as we go for even longer.

讨厌，洋葱跑了。我喜欢先铺一层油，让切好的洋葱在继续切其他部分时黏住。把它们放好、包起来，再放进食物加热器，大约十二到二十四小时。因为这不是真正的烤箱，只是加热器，但时间久了，就会得到好吃的烤洋葱。更久些，甚至会焦糖化。

41 Today's story, getting a 10 out of 10.

今天获得“十分满分”的故事。

42 One Transportation Security Administration officer might be getting some extra wagging rights. After being crowned the agency's top dog, the agency announced Bolt, a three-year-old German short-haired pointer from Dallas-Fort Worth International Airport is the winner of their 2026 cutest canine contest. Although he's a federal officer, Bolt has no poker face.

一位运输安全管理局“警员”，可能多了点摇尾巴炫耀的资本。该机构宣布，达拉斯-沃思堡国际机场三岁的德国短毛指示犬博尔特，赢得2026年最可爱工作犬比赛，成为头号狗狗。虽然是联邦“警员”，博尔特却藏不住表情。

43 Look at those pearly whites. 85 dogs nominated. But Bolt fetched the most votes from the public and the hearts of many nationwide.

看看那一口珍珠般的白牙。共有85只狗获提名，但博尔特获得最多公众选票，也俘获了全国许多人的心。

44 But Bolt's job is far more than looking cute. He's part of a TSA Explosives Detection Team helping screen airports and sniff out potential threats. That's one dog serving the looks and protecting our airports against threats, one bark at a time.

但博尔特的工作远不止可爱。它是运输安全管理局爆炸物探测队成员，帮助机场检查，嗅出潜在威胁。这只狗既有颜值，也一次次靠嗅探和吠叫守护机场。

45 All right, it is almost time to go. But first, congrats to our Your Word Wednesday winner. Our friends at Heritage High School in White House, Tennessee, Coach Bradley, you all submitted prudence, the ability to use good judgment and self-discipline to avoid unnecessary risks.

好了，差不多该结束了。首先恭喜“周三你的词语”赢家，田纳西州怀特豪斯传统高中的朋友们和布拉德利教练。你们提交了prudence，指运用良好判断和自律，避免不必要风险的能力。

46 Thank you for making us smarter today. And speaking of Your Word Wednesday, I got a shout out here to Miss Frasick and all of my friends at Flood Middle School in Stratford, Connecticut. They sent me this fresh stack.

谢谢你们让我们今天更有学问。说到“周三你的词语”，向康涅狄格州斯特拉特福弗勒德中学的弗拉西克老师和所有朋友们致意，他们寄来了这一叠崭新的东西。

47 It says Your Word Wednesday. Thank you so much for this. And next up, shout out goes to Miss Amy at Marshall Middle School in the Plains, Virginia.

上面写着“周三你的词语”，非常感谢。接下来向弗吉尼亚州普莱恩斯马歇尔中学的艾米老师致意。

48 Thank you for all the kind letters. We are looking forward to spending another season with you. Remember, curiosity helps us understand the world.

感谢所有温暖来信，期待再和你们共度一季。记住，好奇心帮助我们理解世界。

49 Kindness helps us change it. So go ask a question, make somebody smile and shine on sunshine. I'm Coy Wire and we are CNN 10.

善意帮助我们改变世界。所以去问个问题，让某个人微笑，继续发光吧，阳光伙伴们。我是科伊·怀尔，这里是 CNN 10。

学习词汇 / 原稿注释

以下保留用户原稿的词汇释义，并省略音标；部分词义未必是本期语境中的用法，理解时请结合正文译文。

flesh n.（果实的）果肉
husk n. 外皮；壳
back-to-back adj. & adv. 紧接的（地）；连续的（地）
pinnacle n. 顶峰，极点
admiration n. 钦佩，赞美，羡慕
displease v. 使不高兴；得罪，触怒
pitch n. 运动场地;（尤指）足球场
fret v. 苦恼；烦躁；发愁
indigo n. 靛蓝色;【化】靛蓝，靛青
far-fetched adj. 牵强的；未必会的
go viral 爆红
breadboard n. 面包板 (或叫免焊万用电路板)
solder v. 焊接
analog synthesizer 模拟合成器
analog n.【计算机】模拟; 类比
dapper adj. 整洁的；短小精悍的；伶俐爽快的
tux n.【美】【口】（男士无尾半正式）晚礼服；餐服
bestie n. 最好的朋友，闺蜜
stitch n. 缝合伤口
reach around 绕过某个物体或身体部位去触碰、拿取
prudence n. 审慎，慎重
differentiator n. 差别因素
hypothesis n. 假设，假说
rock on 加油; 太棒了

foil n. 箔，金属薄片

caramelize v. 使成焦糖（色）

wag v.（动物）摇尾巴

pointer n.（能指出猎物位置的）猎犬

poker face【口】毫无表情的面孔

pearly adj. 珍珠似的

fetch v.（去）拿来，取回

stack n. 迭戴组合(手环串)
