The Sun, Moon and Earth Align: Stunning views of the total Solar Eclipse

共30题。每空填写原文中的1至3个英文单词；留意拼写、单复数及词形。

方括号[01]为题号，P01为原稿段落号。答案集中在末页，练习时请先遮住。

建议先浏览正文，再配合本期视频听写；完成后重听检查，每题1分，满分30分。

姓名：_____ 练习日期：_____ 得分：___ / 30

依据用户提供的字幕原稿制作，未与视频核验。难度参考雅思听力，采用原文挖空形式，非官方模拟试卷。

听写正文 / QUESTIONS 01–30

P01 Hello, and happy Friday, Fri-yay. Welcome to our last summer edition of CNN 10 before we start our usual slate of Monday through Friday shows kicking off after the weekend. Now, before we dive into our weekend, we have some of the top news stories from this past weekend.

P02 We will start with the heartbreaking story still developing in Colombia.The South American nation has been devastated by a 7.4 magnitude earthquake, the strongest to hit Colombia in a decade. The quake struck Monday in the western region, sending shockwaves through cities across the country and prompting the government to declare a [01] _____.

P03 As of this taping, more than 200 people have been killed, hundreds more injured, a number that's expected to rise as rescue crews continue to work [02] _____. Our Reid Binyan has a look at the race to find survivors and how the world is reacting.

P04 Colombia's president on Tuesday touring areas devastated by the massive earthquake that rocked the country Monday, the government declaring a national disaster as the nation's army deploys forces to the most gravely devastated areas.

P05 Some areas hard to reach, including near the quake's epicenter, have yet to receive help, according to one indigenous leader. A United Nations official says [03] _____ of food is critical in the coming days. World leaders are offering assistance, and so are aid groups.

P06 We've already deployed a team. They're already on the ground. The devastation is vast, and it covers a large [04] _____.

P07 [05] _____ in the U.S. also doing what they can to help. Just trying to help out, you know, whoever might need it.

P08 Those relief efforts coming amid ongoing rescue efforts, [06] _____ racing to find people still buried under the rubble.

P09 Volunteers aiding in the daunting task of locating survivors. Video shows the moment an infant was pulled from the [07] _____ of an apartment building. One of the rescuers said he and several other civilians helped save the child after he heard someone under the rubble calling for help.

P10 The assistance from volunteers coming as first responders need all the help they can get amid the massive rescue effort. Crews also utilizing [08] _____ search and rescue dogs that Colombian police say are playing a key role.

P11 Now to Denmark, where the government is taking an old school approachto trying to curb a next gen problem in the classroom, AI cheating.

P12 High school students will be required to [09] _____ their written assignments and any exams written at home as part of emergency measures aimed at combating the trend.

P13 The rules take effect immediately and apply to students in upper secondary education, which typically begins around age 16. The country's Ministry of Education is also calling on high schools to use tools to monitor student screens during exams, as well as [10] _____ to filter the content they can access during exams and in class.

P14 They're also encouraging schools to get students to complete more assignments in school under controlled environments to make [11] _____ easier.

P15 Pop quiz, hot shot. Which part of the moon's shadow produces a total solar eclipse, penumbra, umbra, corona or terminator?

P16 Go ahead and moonwalk if you said umbra.

P17 The moon's orbit is tilted relative to Earth's orbit around the sun, so in order for a total solar eclipse to occur, all three must be perfectly [12] _____.

P18 The celestial sky put on quite a show this past week. A total solar eclipse crossed over Iceland, Greenland, Spain and Russia.

P19 For about two minutes, the moon lined up perfectly with the sun, plunging several countries into [13] _____.

P20 A glowing white [14] _____ of light called the corona emerged around the dark disk of the moon. Folks who saw it were feeling all sorts of emotions.

P21 It was fantastic. Really touching, something that I have never seen before. It went completely dark and suddenly the day came again.

P22 I felt [15] _____ because it just makes us think about, I don't know, the shortness of life and how time can be different.

P23 And in a rare alignment on Thursday morning, did you catch any of this? The northern hemisphere got a dazzling look at the Perseid meteor shower. Every August, Earth passes through [16] _____ left behind by Comet Swift-Tuttle.

P24 NASA says there were excellent [17] _____ because the peak of the shower coincided with a moonless new moon, allowing stargazers to spot 50 to 100 meteors per hour. NASA says the Perseids are the very best meteor showers to observe from Earth.

P25 This next story comes with a lesson. Do not mess with Harry Potter superfans. The Greenlink interconnector is one of Europe's most important energy projects. It's an [18] _____ that's designed to connect the electricity grids between Ireland and Wales at a price of more than half a billion dollars.

P26 But it was originally planned to slice right through a Harry Potter filming location, one that has become somewhat of a sacred spot for Potter fans. Our Ivana Skotola is here with what happened next.

P27 Harry Potter fans managed to get an electricity project [19] _____, all to protect Dobby's grave.

P28 The grave is actually a memorial for the [20] _____ on a beach in Wales where Dobby's death scene was filmed. It's a popular tourist spot where fans leave stones, and some travel across the world to visit. The Greenlink interconnector carries electricity between Britain and Ireland through cables going under the Irish Sea.

P29 During the project's development, its planned route was set to go through the fan-made memorial to Dobby the Elf. That's before fans caught wind of the plan, former project manager Simon Ludlam said in a podcast. He said they received hundreds of calls [21] _____ the route after the plans were revealed.

P30 So they ultimately changed the planned route to avoid the grave. It's actually not the first time the memorial has been saved. In 2022, the National Trust considered removing it or relocating it because of the [22] _____ it was having on the beach.

P31 In the end, they decided that it could stay open as long as [23] _____ stopped leaving socks and other items that could harm the environment.

P32 Now to a story that is proof that people are never too young to dream big, and it's never too late to make those dreams a reality. When Tahira Reid-Smith was in third grade, she drew a picture of something she always wished she could have, an [24] _____ double-Dutch jump rope machine.

P33 Now four decades later, she's an [25] _____, and she has turned her childhood dream into a rope-spinning reality. I'll skip the puns and let our Scout Richards jump right in for more.

P34 This third-grade drawing became a real [26] _____.

P35 This was in 1986, and all I remember the assignment was to draw a picture of something you wish you could have. And I was an only child at the time. I loved jumping double-dutch.

P36 Now an engineering professor, Reid-Smith turned her childhood idea into a real automated double-dutch machine [27] _____ that turns the rope for you. And she even reunited with her third-grade teacher in the Bronx to show her what became of that assignment.

P37 I was really emotional about it this morning. There's a real teacher that I had that was part of that memory.

P38 Tahira has certainly shown me that anything is possible. And if you have an idea in mind, don't give up on your dream. Go up a little faster.

P39 Members of Chicago's 40-plus double-dutch club got to give the machine a whirl.

P40 If you have a turning machine, then anybody can jump. And it's even something that can help people learn how to jump.

P41 Now, Reid-Smith hopes to bring her invention, aptly called Jump Dreams, into [28] _____.

P42 All right, this week's story, getting a 10 out of 10 is you.

P43 The 10th of the month was Monday, so that means we are highlighting some of our viewers' top moments of 2026 so far. A lot of international submissions this month, so let's kick it off in China, where Wei Ling just passed her national postgraduate entrance exam and she received an offer from her dream university. She says, It is my proudest yes-I-did-it moment of the whole year. We are so happy for you and love seeing your two furry fans celebrating with you. It is purr-fect. Congratulations, Gong Xi!

P44 Our next submission comes from Romania, where Bucharest Christian Academy celebrated their diverse student body with a [29] _____. Mr. Maynard says their school hosts students and teachers from 11 different countries and everyone was able to share their favorite songs, dance, and most importantly, food. Rise up!

P45 Finally, let's head to Dagsboro, Delaware, here in the United States. Mrs. Sensman shared these photos of the Indian River School Unified Basketball Team, which represented the state of Delaware in this year's Special Olympics.

P46 After a hard-fought tournament, these Olympians brought home [30] _____, and their state could not be more proud. Neither can we. Way to go, and thank you for sharing such a momentous accomplishment with us.

P47 That's all for this month's 10 out of 10. If you want to be featured in our September 10th highlights, tell us something good. Send us your dubs, your victories, your milestones, and achievements to CNN10 @ CNN.com. Go make it an awesome weekend, my friends, and starting Monday, we will be back with you every day of the workweek.

P48 Can't wait. I'm Coy Wire, and we are CNN 10.

参考答案 / ANSWER KEY

2026-08-14 · 共30题。以下为对应空格的原文答案；P编号便于回查中英对照稿。

本练习自评时不区分大小写，拼写与单复数须符合原文。每题1分；此分数不换算为雅思分数。

题号	答案	段落
01	national disaster	P02
02	around the clock	P03
03	distribution	P05
04	geographical area	P06
05	Volunteers	P07
06	emergency responders	P08
07	wreckage	P09
08	specialized	P10
09	verbally defend	P12
10	firewalls	P13
11	supervision	P14
12	aligned	P17
13	darkness	P19
14	halo	P20
15	goosebumps	P22
16	debris	P23
17	viewing conditions	P24
18	undersea cable	P25
19	rerouted	P27
20	fictional character	P28
21	protesting	P29
22	environmental impact	P30
23	visitors	P31
24	automated	P32
25	engineer	P33
26	invention	P34
27	prototype	P36
28	production	P41
29	culture festival	P44
30	silver medals	P46
